Conclusion

Neuilly, 14 May 2021

Ladies and Gentlemen, Associates,

It is my pleasure to present you with the activity report of the SCPP within the transparency report for the period opened 1 January and ended 31 December 2020.

I would like to remind you briefly of the SCPP's major responsibilities:

- Collection and distribution of fees pertaining to:
 - music videos,
 - private audio and audiovisual copying,
 - equitable remuneration,
 - certain uses of commercial sound recordings (excluding equitable remuneration).
- Grants
- Combating piracy
- Defending and developing the rights of sound recording producers

2020 activity report

1/ COLLECTING

1.1 / Music videos

- Collections of fees for the distribution of your music videos stood at 8,898,000 euros in 2020 compared to 9,192,000 euros in 2019, which represents a drop of 3%. This drop is essentially due to the stoppage of music video broadcasting by the France Télévisions group and the reduction of music video broadcasting by the M6 group.

1.2 / Private Audio Copying

- It should be remembered that COPIE FRANCE is responsible for collecting this fee. Fifty percent goes to the authors, twenty-five percent to performers and twenty-five percent to the producers.
- The total amount collected in remuneration for Private Audio Copying by COPIE FRANCE for 2020 represented 156 million euros, up by nearly 8% compared to 2019 (145 million euros), due to very substantial exceptional adjustments in 2020 concerning prior years of rights. Without these exceptional adjustments, collections for Private Audio Copying would have stood at 144 million euros, compared to 143 million euros in 2019, which is an increase of 1%. Indeed, although the sales of media subject to tariffs were significantly impacted during the 1st confinement in March-April 2020, the sales lost during these months were recaptured in May and June 2020. The same situation occurred at the end of the 2nd confinement. Consequently, overall during 2020, the amounts collected in remuneration for private audio copying were not impacted by the health crisis.
- In addition, in 2020, COPIE FRANCE terminated almost all of the litigation in principle which had led to difficulties in collecting from certain contributors.

1.3 / Private Audiovisual Copying

- A substantial portion of the collection of this remuneration (copying distributed music videos, copying static images extracted from music videos) is performed by COPIE FRANCE, and the remuneration is distributed by PROCIREP, representing audiovisual producers. The SSCP also collects a share of the remuneration for private copying for copying record sleeves and DVD and Blue-ray jackets from SORIMAGE.
- The total amount collected in remuneration for Private Audiovisual Copying by COPIE FRANCE for 2020, other than the adjustments mentioned hereinabove, stood at 93 million euros compared to 85 million euros in 2019, equal to an increase of nearly 10% due to increased sales of tablets as a consequence of the health crisis and the development of teleworking.
- The remuneration actually collected by the SSCP in 2020 in remuneration for Private Audiovisual Copying of music videos of 2019 stood at 264,000 euros, compared to 234,000 euros in 2018, equal to an increase of nearly 12% due to exceptional collections in 2019.

1.4 / Equitable remuneration - SPRE (Collecting society for Equitable Remuneration) COLLECTIONS

- Fees due by radio stations, television stations, clubs and public performances are collected by the SPRE, a joint venture company for producers and performers.
- The collection of fees from most public performances is handled by the SACEM on behalf of the SPRE, as the latter collects directly from clubs and musical theme bars.
- Total SPRE collections for equitable remuneration stood at 106 million euros in 2020, compared to 135 million euros in 2019, corresponding to a significant drop of nearly 21%, resulting mainly from the inability to collect from certain public performance venues that had been subject to administrative closure for several months (bars, cafés, restaurants, clubs, “non essential” shops), under both SACEM management and SPRE direct management, as well as drops in collections from the radio sector.

1.4.1 Radio sector

- Collections across the entire radio sector stood at 31.5 million euros in 2020, compared to 33.8 million euros in 2019, which is a drop of nearly 7%, due to both the payment difficulties of certain small radio stations due to the health crisis and the drop in the use of sound recordings by certain private local radio stations and public radio stations.

1.4.2 Television sector

- Collections reached 4.7 million euros in 2020, compared to almost the same amount in 2019 (4.9 million euros).

1.4.3 Club/dance bar/musical theme bar sector

- Collections in the club sector stood at 8.3 million euros in 2020 compared to 17.7 million euros in 2019, which represents growth of nearly 53% due to the complete closure of clubs and the majority of bars since March 2020 as a result of the health crisis.

1.4.4 Public performance sector – SACEM collections

- Collections for 2020 stand at 61.6 million euros compared to 78.8 million euros for 2019, representing a significant drop of nearly 22%, resulting from the inability to collect from certain public performance venues that had been subject to administrative closure for several months (bars, cafés, restaurants, clubs, “non essential” shops) and the cancellation of various festive events using recorded music (school fetes, etc.) as a result of the health crisis.

1.5/ Sound recordings (excluding Equitable Remuneration)

- Since mid-1997, the SCPP has been intervening on behalf of its associates, within the framework of general contracts of common interest, in a certain number of sectors relating, not to Equitable Remuneration, but to the right to authorise producers of sound recordings to: use sound recording excerpts via on-line services, reproduction rights for sound system operators, audiotel, interactive terminals, telephone music-on-hold, and the share of the use of sound recordings by television stations that is not subject to Equitable Remuneration and for which the SCPP has been mandated. The amount collected for 2020 in the Sound Recording sector (excluding Equitable Remuneration) stands at 6.7 million euros, down by 9% compared to the amount for 2019 (7.4 million euros), primarily due to changes in the legal framework for webcasting, on which the SPRE has operated since 1st December 2019 and the drop in collections on behalf of foreign collective management companies.

2/ DISTRIBUTIONS

- Nearly 81 million euros (gross amounts) were distributed in 2020, which represents a drop of 7.8% compared to that of 2019 (88 million euros).
- This drop was due to the deferral of the final distributions for private copying and equitable remuneration on sales for rights year 2018, which would otherwise have been carried out at the end of 2020.
- This deferral is not associated with the impacts of the health crisis on the operational capabilities of the SCPP to carry out the usual distributions.
- It was decided by the Board of Directors as a means of facilitating an agreement between the beneficiaries of music and the beneficiaries of an audio book on the distribution rules applicable to the audio book. Indeed, during the weighting of the final remuneration distribution for private copying in 2018 between the SCPP and SPPF, carried out in 2020, it was apparent that the share of the audio book in the distribution, according to the rules in force (i.e. pro rata to sales and the duration of the sound recordings), had more than doubled compared to 2017. However, studies on the private copying practices conducted by COPIE FRANCE in 2011, 2014 and 2017 did not reveal an increase in private copying practices on the audio book in conjunction with an increase in sales of this type of audio content (on the contrary, they revealed a steady drop in private copying while sales of the audio book were already growing) and may justify putting in place a discount on the units of sale of the audio book in order to keep the distribution fair between the beneficiaries of the music and the beneficiaries of the audio book. It had not been possible to reach an agreement with the beneficiaries of the audio book or with the SPPF on the amount of this discount before the end of 2020. It was on the other hand agreed that COPIE FRANCE would, at the beginning of 2021, conduct a further study on private copying practices with a questionnaire validated by the beneficiaries of the audio book and would reinstate discussions with the beneficiaries of the audio book and the SPPF when results of this further study are made available. The study was presented at the end of April 2021 and revealed that in 2021 almost 20% of French people declare that they copy audio books.
- This study was not able to determine the share that the private copying of the audio book would have in the distributions of the SCPP and the SPPF (a further study of COPIE France, the results of which are expected in October 2021, was launched for this purpose), but it removed uncertainties as to the absence of private copying of the audio book, despite a strong growth in sales. Discussions will be reinstituted with the beneficiaries of the audio book, the beneficiaries of the music and the SPPF, in order to reach an agreement enabling the deferred final distributions to be carried out.
- In return for the deferral of these distributions, the 2018 private copying provisional remuneration distribution advances, corresponding to 95% of the remuneration, were not cancelled in 2020 (this non-cancellation is not taken into account in the above 2020 distributions figure), in order to limit the impact of the deferral as much as possible. Specific cash advances were also paid to the major beneficiaries of these deferred remunerations in order to mitigate the effects of the deferral (2.5 Million euros paid to 6 members of the SCPP).
- The 2020 distributions were supplemented by a cash advance for a gross amount of 44 million euros, reduced to a net amount of 40.4 million euros after taking into account the advances and downpayments paid previously and not recovered (a cash advance of 50 million euros corresponding to a net amount of 47 million euros had been paid at the end of 2019). The structural advance has been reduced from a gross amount of 14 million euros to a gross amount of 13.5 million euros corresponding to a net amount paid of 12.2 million euros. The reduction of these advances reflects the SCPP’s shorter distribution timescales for the Radio France and television station collections, due to the monitoring of the Radio France and television station records within the framework of the SPRE by the company BMAT, at the initiative of the SCPP

- Lastly, exceptional advances, repayable on demand, were paid to three major international companies on the future distribution of the non-distributable amounts of the equitable remuneration, pending a national court decision taking into account the ECJ ruling of 8 September 2020 (€7.4 million).
- A detailed report of the distributions is provided in the 2020 financial report.

3/ GRANTS

- A report on these grants is enclosed with this document under the title "Grants approved by the SCPP in 2020" – Appendix 3. This report includes the breakdown of grants per project.
 - For 2020, the SCPP had a normal total budget of 22,194,000 euros, including 14,510,000 euros in terms of the 25% allocated to Private Audio Copying and Private Audiovisual Copying remunerations and in terms of the allocations of non-distributable remuneration resulting from equitable remuneration, with 4,000,000 euros from amounts that cannot be allocated after a period of five years and 3,381,000 euros from the balance brought forward from 2019 and from cancelled selective assistance projects, and 303,000 euros from drawing rights that were not used or cancelled in 2019.
 - In addition, the SCPP, within the framework of the support scheme established in April 2020, supplemented this normal budget with the amount of €3,780,000 to facilitate the restart of business following the first confinement. This supplementary budget was accompanied by an exceptional and temporary increase in the portion of the cost of projects eligible for aid by the SCPP, both for the production of sound recordings and for the production of music videos.
 - However, the ruling of the Court of Justice of the European Union of 8 September 2020, in the proceedings between Recorded Artists Actors Performers LTD and PPI disrupted the SCPP’s funding of grants.
 - Indeed, it is considered that this ruling puts an end to what are legally referred to as the “non-distributable” amounts of the Equitable Remuneration referred to in articles L.214-2, L.324-7, R.321-6 and R.321-7 of the Intellectual Property Code.
 - These amounts were, until the ruling of 8 September 2020, the amounts collected for sound recordings published for commercial purposes:
 - not recorded in a European Union country or an EFTA country,
 - not recorded in a country that has ratified the Rome Convention by a national of one of these countries, subject to material reciprocity,
 - and for which the first publication was under 71 years ago.
 - This analysis was shared by the SCPP and the SPPF, as well as the departments of the Ministry of Culture.
 - This ruling has changed the situation as regards equitable remuneration in Europe and in France, and the SCPP can no longer use amounts that were previously legally deemed as non-distributable amounts of the equitable remuneration for grants.
 - This has had a dual effect:
 - the current grant budget of the SCPP for 2020 had to be restructured, in particular in order to remove from it the sum of €2,936,262, corresponding to the non-used portion of the legally non-distributable amounts of the equitable remuneration as at 8 September 2020, and to set this sum aside for its distribution to the beneficiaries of sound recordings that were previously non-distributable amounts of the equitable remuneration. The restructuring did however make it possible to maintain the exceptional grant budgets approved in April 2020 within the framework of the support scheme, until December 2020.
 - The rules for allocating the SCPP’s grant budgets had to be amended, with effect from 1st January 2021, in order to take into account the drop of almost 45% of the SCPP’s multi-year grant budgets. These new rules dramatically reduce the share of grants allocated to special projects, significantly reduce the share of grants allocated to drawing rights and significantly increase the share of grants allocated to selective assistance. In absolute terms, this makes it possible to slightly increase the grant amount allocated to selective assistance, within the framework of a multi-year budget. These new rules take into account the fact that the distribution of previously non-distributable amounts will constitute new income for their beneficiaries in France, who, following repayment of their major share to their foreign beneficiaries, will benefit from a partial increase in their operating income and an enhanced capacity to invest in new sound recording or video creations. The beneficiaries in France benefit mainly from drawing rights.
- These proposals were in fact decided on the assumption that the previously non-distributable amounts have been effectively distributed to their beneficiaries, which is highly likely, but not entirely certain, given that the Court of Justice of the European Union could still modify its case law within the framework of new disputes that may be submitted to it. As the Court of Justice of the European Union has delivered a ruling making non-distributable amounts distributable again, with retroactive effect, there is a need not only to reset the previous rates for special projects, drawing rights and selective assistance for the future, but also, in terms of the beneficiaries in France of the foreign beneficiaries, to offset the lack of distribution of formerly non-distributable amounts that have now become distributable.
- These amendments were approved by an exceptional general meeting of the shareholders of the SCPP held on 16 December 2020.

4/ GRANTS IN THE EVENT OF NON-COMPLIANCE OF DISTRIBUTORS AND SPECIAL FINANCIAL AID

- For several years now, the SCPP has had an aid scheme in place for its associates who are victims of the financial default of their distributor. This aid takes the form of either payments of advances on future distributed rights, or temporary or permanent grant payments.
- These are decided by the Board of Directors of the SCPP. The grants are financed by the remaining balance of non-distributable amounts of Article L.324-17 of the Intellectual Property Code unallocated by law.
- In 2020, la SCPP did not have to pay grants to its associates due to the default of their distributor.
- On the other hand, as the collective management societies had authorised by a decree the use in exceptional cases of the sums referred to in article L.324-17 of the Intellectual Property Code as financial aid for their members affected by the economic consequences of the health crisis, the SCCP included in its April 2020 support scheme, a financial aid measure allowing for compensation of up to 40% of the financial losses incurred by its members in respect of their sound recording production business between March and June 2020, within the limit of certain ceilings. The 3 major international companies voluntarily excluded themselves from this measure. This allowed for €1,949,218 to be allocated to 200 members of the SCPP. This aid was financed by the balance of non-distributable technical amounts allocated to the actions referred to in 'article L324-17 of the Intellectual Property Code. Although the health crisis continued after June 2020, the SCPP chose not to extend this measure after 30 September 2020, both because the ruling of the Court of Justice of the European Union of 8 September 2020 had deprived it of the substantial amounts referred to in article L.324-17 of the Intellectual Property Code, which had been at its disposal until the date of this ruling, and because the CNM had been provided with significant financial resources, including a significant portion earmarked for sound recording production, which should allow the financial aid funding provided by the SCPP in 2020 to be continued in 2021.
- It is specified that, subject to verifications likely to be conducted by the SCPP on the reality of the losses incurred by the beneficiaries of the financial aid on examining their accounts for 2020, the SCPP's financial aid for 2020 is given the status of grants.

5/ COMBATING PIRACY

- Details on the SCPP's actions in terms of combating piracy are provided in the activity report of the Anti-piracy Unit in Appendix 5.
- Once again in 2020, the actions of the SCPP have primarily concentrated on combating piracy on the Internet. The SCPP continued to send the offences detected on the P2P networks to HADOPI and to arrange for the deactivation of the links to "Direct Download" sites concerning sound recordings in its national catalogue. A significant increase in the number of offences detected by the SCPP, which are subject to a warning message sent out by HADOPI was noted, furthering the positive effect of these warnings, since internet piracy in France has dropped substantially (by almost 40 percent for P2P networks, without any significant transfers to "Direct Download" sites) when compared with the situation which existed prior to the creation of HADOPI. Moreover, the SCPP continued its actions for blocking clearly illegal sites. It initiated civil proceedings, which led to the closure of several illegal "stream ripping" converter sites managed from France.

6/ COMMUNICATIONS AND INSTITUTIONAL RELATIONS

6.1/ Communication

- Appendix 6 contains a report on our communications efforts in 2020.

6.2/ Institutional relations

- It should be remembered that since the end of 1996, the SCPP has been in charge of a local and international lobbying mission.
- This mission is performed in partnership with the SNEP. It exclusively involves the development and protection of the rights of producers of sound recordings and music videos.

- The SCPP participated in the first works of the Centre National de la Musique (CNM), having a seat on its Board of Directors and several representatives on its professional board. It participated in the preparation of the draft agreements for the dissolution of the FCM and the Bureau Export de la musique française. It is quite unfortunate that the CNM was unable to immediately take over the tasks of the FCM and BUREX as had been provided for in the dissolution agreement, which caused a suspension for several months, between the end of 2020 and the first few months of 2021, of the grants allocated by these two bodies.
- In addition, the SCPP continued its participation in the works of the ISO MPEG committee on the protection of artistic and literary property in the context of the new MPEG standards and the implementation of international standards on data exchange formats for the music industry (in the context of the international organisation, DDEX, Digital Data Exchange), particularly for collective management societies for related rights, and thereby to reduce the cost and lead times involved in processing rights for which the SCPP is mandated. Very large volumes of data are now exchanged in DDEX format with the other related rights management companies.
- The SCPP also made major contributions to the work of the various IFPI work groups in charge of proposing measures that make it possible to simplify the international management of rights managed collectively by the producers of sound recordings, to make it more efficient, more transparent and less costly.

7/ CURRENT PERIOD

7.1/ Institutional relations

- The SCPP participated, alongside the SNEP, in the parliamentary hearings conducted within the framework of the draft law on audiovisual communication, which became the draft law on the protection of public access to cultural works in the digital age.
- It also participated in the meetings of the board of directors and professional boards of the CNM, which leveraged substantial exceptional funding and recurring funding for the benefit of sound recording production, which was over and above the funding that had been available to the FCM and the Bureau Export up to 2020. In addition, the CNM is now in a position to take over and to strengthen the aid measures previously managed by the FCM and the Bureau Export.

7.2/ Combating piracy

- The SCPP continued to report the offences detected on P2P networks to HADOPI and to arrange for the deactivation of the links to "Direct Download" sites concerning sound recordings in its national catalogue. HADOPI also transmitted a large number of offender case files to the prosecutors' offices. In addition, the SCPP requested the blocking of new sites that are obviously engaging in piracy and launched further actions against obviously illegal "stream ripping" converters.

7.3/ SCPP/SPPF Litigation

- It should be noted that in January 2017, the SCPP informed the SPPF that it intended to object to the agreement of 15 July 2011, which, in particular, laid down the remuneration distribution rules for private copying and equitable remuneration collected by the SCPA, on behalf of both companies, with a view to reaching a new agreement with the SPPF, the principles of which had been presented to the latter during the same meeting.
- The SCPP voluntarily waited until May 2017 to make this objection, so that the current agreements terminate on 31 December 2018 rather than on 31 December 2017, in order to allow sufficient time for the negotiation process.
- In addition, starting from 2017, discussions took place between both companies with a view to an eventual merger of the two companies within the SCPA. As the Board of Directors of the SCPP quickly voted in favour of this merger, the SPPF only made its objection to the merger clear in November 2018. Moreover, the SPPF refused the proposal of a new agreement presented by the SCPP and has made no counter-proposal.
- Bearing in mind that no agreement had been reached with the SPPF just a few days before the expiry of the previous agreements, the SCPP took the initiative, in accordance with the law and the articles of association of the SCPA, to have adopted by the SCPP general shareholders' meeting on 14 December 2018, a resolution calling for, as from rights year 2018, the sharing of distributable and non-distributable amounts of the equitable remuneration under the rules of common law, and which simply update the distribution rules for other remunerations, which already complied with common law, so that the SCPP's collections may continue to be distributed between the SCPP and the SPPF, without the possibility of revising these provisions should an agreement be finally reached.
- The SCPP reiterated its proposal for a new agreement during the meeting with the SPPF in January 2019. The SPPF rejected this proposal without tabling a counter-proposal.
- The SPPF served a writ of summons to the SCPP to appear before Nanterre High Court with a view to obtaining the cancellation of the resolution of 14 December 2018, then filed a motion for a summary hearing to appear before the same Nanterre High Court with a view to obtaining the blocking of all of the non-distributable amounts of the equitable remuneration. By an order of 16 May 2019, the judge in chambers of the Nanterre High Court ordered the SCPA, as proposed by the SCPP, to block

6.44% of the total amount of the equitable remuneration received by the SPRE and stated that, for the remainder of the equitable remuneration, the distribution rules adopted by the General Shareholders' Meeting on 14 December 2018 would remain applicable. The SCPP has appealed against this decision. On 5 March 2020, the Court of Appeal of Versailles partially overturned the order of the Nanterre High Court by terminating the blocking order and by suspending the provisions of the decision of the General Shareholders' Meeting on 14 December 2018 relating to amendments made to the calculation of cash advances for 2019 and 2020. Finally, the SCPP and the SPPF jointly agreed to participate in mediation by agreement beginning on 23 December 2019.

- The mediator, Mr Raphaël HADAS-LEBEL, Honorary Chairperson of Section of the State Council, presented his report on 7 September 2020. The latter proposed a solution capable of being accepted by both companies, but which became invalid the following day with the ruling of the Court of Justice of the European Union, which rendered the action devoid of purpose, namely the sharing of amounts of the equitable remuneration that were previously legally deemed as non-distributable. Despite the action becoming devoid of purpose, the SPPF refused to withdraw its summons or reimburse the amounts wrongfully collected within the framework of the ruling of the Court of Appeal of Paris of 5 March 2020, with respect to cash advances for 2019 and 2020. The SCPP has requested the reimbursement of these amounts (around €11,000,000) within the framework of the proceedings initiated by the SPPF.
- However, the SPPF accepted that the amounts in dispute relating to these advances, for which payment was due after 8 September 2020, would be blocked by the SCPA.
- The first instance ruling on this dispute is expected by the end of 2021.

7.4/ Reform of the SCPP’s articles of association

- Since its creation in 1985, the SCPP’s articles of association take into account the differences in the economic strength of its shareholders when determining the number of votes that the latter may hold at General Shareholders’ Meetings. Each shareholder has at last one vote and up to a maximum of 500 votes. The number of votes is calculated on the basis of the number of sound recordings during the financial year preceding the General Shareholders’ Meeting.
- However, within the framework of the transposition of the Collective Management directive of 26 February 2014, the Intellectual Property Code was amended by order no. 2016-1823 of 22 December 2016 and now provides for, in article L.323-8 thereof, the following provisions:

“All members of a collective management body have the right to participate and vote at General Shareholders’ Meetings under the conditions laid down by law and by the articles of association and general regulations.

They may vote electronically. Their participation and the exercise of their voting rights at the General Shareholders’ Meeting may only be restricted by the articles of association or general regulations on the basis of the duration of their membership or the amount of income they have received and which is due to them in respect of the exploitation of their rights, provided that this criteria, which can be combined, is defined and applied in a proportionate and equitable manner.”

- During its General Shareholders’ Meeting of 27 June 2018, the SCPP amended its articles of association and its mandates in order to bring them into compliance with all of the amendments made to the Intellectual Property Code by order no. 2016-1823 of 22 December 2016. However, it was considered that the existing rules on the number of votes at General Shareholders’ Meetings were equivalent to those now provided for in article L.323-8 of the Intellectual Property Code and the existing provisions on this point were not amended.
- As the Commission for controlling the management bodies of copyright and related rights had argued that these provisions were not strictly in compliance with the provisions of the Intellectual Property Code, the SCPP carried out simulations for putting in place a voting system based on the amount of rights apportioned and noted that, although this new system was broadly equivalent to the current system, it significantly altered, either upward or downward, the number of votes held by a significant number of the SCPP’s shareholders.
- Consequently, the SCPP undertook to bring its articles of association into compliance with the provisions of article L.323-8 of the Intellectual Property Code at the time of the next amendment of its articles of association. Due to the COVID health crisis, it had not been possible to prepare for the implementation of this compliance at the 2020 General Shareholders’ Meeting, which therefore had to be postponed until the General Shareholders’ Meeting of 24 June 2021.
- The reform comprises two amendments;
 - The number of votes at the General Shareholders’ Meeting are now determined on the basis of the amount of rights apportioned to the shareholder during the preceding year and no longer on the basis of the number of recordings declared and paid during the preceding year.
 - The maximum number of votes that a shareholder can hold is updated to take into account the amendments of the number of votes at General Shareholders’ Meetings mentioned hereinabove.
- It should be noted that, as indicated above, this reform of the articles of association is carried out within the framework of a legal obligation to bring the SCPP’s articles of association into compliance with the provisions of the Intellectual Property Code; and more specifically, article L.323-8 thereof.

- This amendment has no effect on the composition and rules of procedure of the board of directors or the supervisory board of the SCPP, which still provide for a representation of members by board (where membership of the 2nd and 3rd board shall continue to be determined on the basis of the number of sound recordings declared).
- Lastly, it will have no impact either on the capacity of members to obtain grants from the SCPP, which shall continue to be governed by the provisions currently in force.

CONCLUSION

2020 proved to be a particularly challenging year for the SCPP, as well as for its members and French society in general. Although teleworking for all staff had been implemented from 12 March 2020 and had ensured the continued performance of all of the duties of the SCPP from the start of the health crisis, it demanded considerable efforts on the part of the employees of the SCPP, resulting in lower efficiency and, inevitably, lower responsiveness.

In just a few days, we were required to put in place a special support scheme with unprecedented financial advances, which were paid very quickly, to postpone the Annual General Shareholders’ Meeting to September 2020, so that the latter could be held in person in accordance with the health rules, to respond promptly to the ruling of the Court of Justice of the European Union by proposing a restructuring of the current grant budget, in a manner that complies with the ruling of the Court of Justice of the European Union, without undermining the support scheme’s special grants and to carry out a major reform of our grant system, adopted by an overwhelming majority during the exceptional general shareholders’ meeting of 16 December 2020.

The health crisis inevitably had an impact on the level of collections, but to a lesser extent than had been anticipated (less than a 10% drop compared to the initial 2020 budget), due in particular to collections in remuneration for private copying and the SCPP’s direct collections remaining at a high level.

At the time of preparation of the 2021 budget, we expected our collections to improve compared to 2020 with the reopening at the beginning of 2021 of cafés and restaurants, which represent a substantial portion of the SPRE collections. This however was unfortunately not the case, as these establishments were required to remain closed for longer in 2021 than in 2020.

2021 is therefore set to be another difficult year for the SCPP and its members, in particular because the SCPP was unable to renew the special grants provided under the April 2020 support scheme in 2021. The ruling of the Court of Justice of the European Union had the effect of draining the SCPP’s grant budget, as the remaining legally useable balance at the end of December 2020 had to be allocated to the 2021 grant budget, in order to mitigate as far as possible the consequences in 2021 of the ruling of the Court of Justice of the European Union. The good news is that for 2021 the CNM has sizeable grant budgets, much higher than the grant budgets of the SCPP and the SPPF in 2020, which may be effected during the course of 2021 and which will more than compensate for the SCPP’s lack of a support facility in 2021.

SCPP COLLECTIONS

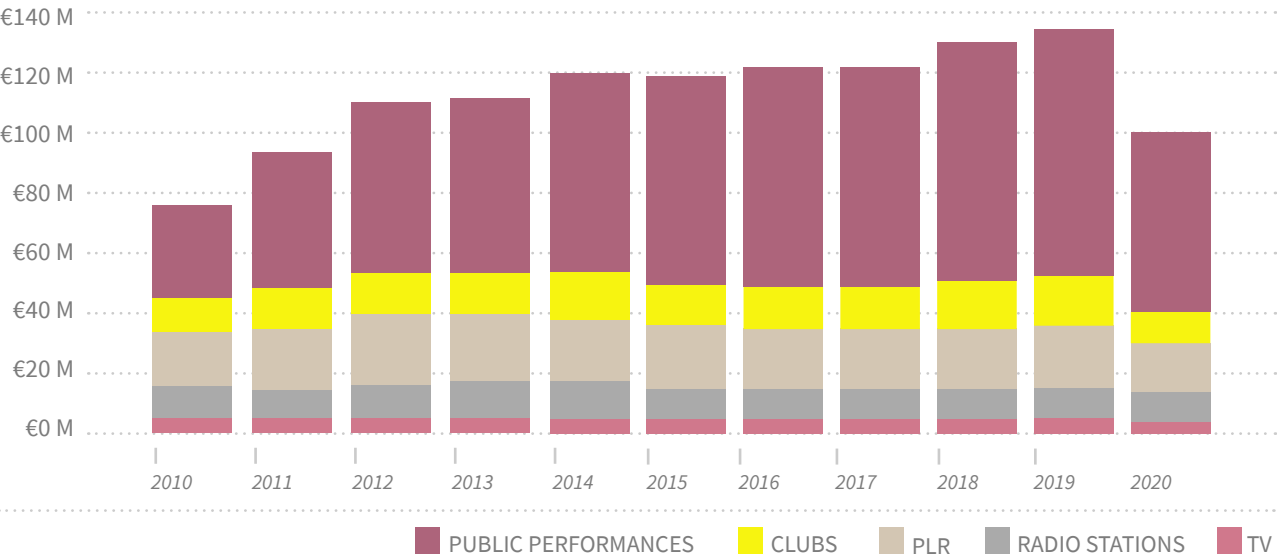

Equitable Remuneration

- In 2020, the SCPP received 71.7% of the Equitable Remuneration paid by the SPRE to the SCPA during the period (70.3% in 2019, 69.7% in 2018).
- The SPPF paid to the SCPP:
 - €1,286 K for the temporary adjustment of the distribution for rights year 2017 between the two companies,
 - €399 K for the final adjustment of the distribution on broadcasts for rights year 2014.

The SPRE received €106.11 M in Equitable Remuneration in 2020, which represents a drop of over 21% compared to 2019 (€135.14 M). This drop can be explained by the complete closure of the clubs since 14 March 2020 and by the closures of public performances according to the various governmental decisions.

SPRE collection

The SCPP also collected €56.1 K in remuneration from foreign collective management societies (€94.8 K in 2019), to be distributed to SCPP members.

Private Audio Copying

- The SCPP and the SPPF provisionally shared Private Audio Copying in 2020 based on a cash rate of 71.7 % for the SCPP (compared to 70.0 % in 2019) and 28.3 % for the SPPF.
- Collections are up slightly by 0.4% compared to 2019 at €27.4M, mainly due to the SCPP having a better market share compared to the SPPF.

Private Audiovisual Copying

Private Audiovisual Copying comes from three sources: the copying of distributed music videos, the copying of static images extracted from music videos (frames) and the copying of DVD booklets and sleeves.

Remuneration for the private copying of music videos, DVD sleeves and booklets and frames are distributed prorata to the distribution of remuneration for broadcasting by television channels (with an audience of over 1% of the market share) of music videos based in France.

Remuneration for the private copying of record sleeves is distributed with CPS remuneration.

Music Video broadcasting rights

Collections relating to music video broadcasting rights are down 3% between 2019 and 2020, due primarily to the drops in collections coming from long-standing channels of the M6 group (M6, W9 and M6 Hits).

Following the acquisition at the end of 2019 by the M6 Group of Lagardère Active’s channels MCM, MCM Top and RFM TV, these channels are now recorded in the accounts of the M6 group. .

Reproduction and public communication rights (excluding compulsory licence)
for Sound Recordings

The SCPA received, on behalf of the SPPF and of the SCPP, €2,770 M from users of telephone music-on-hold (€2,771 M in 2019).

81% of net rights collected were paid to the SCPP in 2020 (80% in 2019), corresponding to €1,795 M, by the SCPA within the framework of the agreement signed by the SPPF and the SCPP in 2002. The SCPP has in addition received €8.2K in adjustments from the SPPF.

In 2020, the SCPP also posted:

- €3,347 M from television stations (€3,387 M in 2019), including €24 K in adjustments from the SPPF.
- €0.958 M from sound system operators, Internet sites and suppliers of music-on-hold, Internet radio stations... (€1,268 M in 2019),
- €0.641 M from sound system operators on behalf of foreign collective management companies (€0.937 M in 2019)

In total, the sound recording rights therefore stand at €6.7 M, which is 9.3% less than in 2019.

2/ DISTRIBUTING

The amounts distributed in 2020 are down by 7.8% compared those distributed in 2019 at €81.2M.

This drop can be explained mainly by the postponement to 2021 of the final distributions on sales (Equitable remuneration, private audio copying, TV rights).
The SCPP moreover distributed €54,000 in financial income to its beneficiaries in December 2020.

1/ KEY FIGURES

Since 2010, the costs for collection and distribution, which constitute the main missions of the SCPP, are distinguished from the costs of the missions that were entrusted to it and which do not concern its SPRD activity. These are grouped together in the "Other Expenses" heading. The routine expenses of the SCPP have increased by 13%, with total expenses up by 9 %.

The total expenses are 1% above budget. This overrun was due to the 2 month profit sharing bonus compared to the budgeted 1 month profit sharing bonus.

The main explanations for the increase between 2019 and 2020 are therefore the profit sharing bonus, as well the franchise on rent for one quarter granted by Gecina in 2019 and the operating provisions recognised in 2020.

Management expenses indicate a higher increase: this increase was due to an update of the cost-accounting system which had the impact of transferring the wage costs from the related budgets (French national Collective Agreement on Phonographic Publishing and the Anti-Piracy Unit - Convention Collective Nationale de l'Edition Phonographique et Bureau Anti Piraterie).

The withholding rate for sound recordings which in 2019 stood at 9.1%, stands at, subject to approval by the General Shareholders' Meeting, 12.9% in 2020. The withholding on music video broadcasting rights remains at 6%. In 2020, the amount of withholdings booked as such was €8,660 million (€7,562 million in 2019) and represents 10.9 % of current collections. The "routine expenses/collections" ratio, which was 8.2% in 2019, was 10.5% in 2020, taking into consideration the Copie France Management fees.

2/ BALANCE SHEET

Main investments during the 2020 financial period

The SCPP put a number of developments into production in 2020 allowing for, inparticular, the improvement of the declaration, identification and distribution tools.

Receivables, cash and deferred charges

- Accounts receivable (income receivable), which stand at €3.1 M, are comprised of receivables against music video broadcasters and other users (Sound recording rights) and are mostly invoices to be issued for broadcasts in December 2020.
- The other receivables are primarily remunerations that are provisioned each year for known amounts to be invoiced to the SCPA (representing Equitable Remuneration settled by the SPRE, the Private Audio Copying paid by COPIEFRANCE and "Telephone music-on-hold" rights), and not yet paid to the SCPP, VAT adjustments for remuneration provisions and current operations and finally cash and structural advances granted to members in December 2020.
- Cash and investment securities stand at €25.05 million (compared to € 65.27 million at the end of 2019) incl. €0.91 million for investment securities:

BANKS AND INCOME	QUANTITY	UNIT VALUE	AMOUNTS
SOCIETE GENERALE – Term deposit			610,987.66

PORTFOLIO TOTAL AT 31/12/2020			912,345.99

- Cash on SCPP's current accounts stood at €24,140,836.

The company's shareholder equity

At the end of 2020, the SCPP had 3,314 associates (vs. 3,026 at the end of 2019 and 2,811 at the end of 2018). The balance carried forward stood at €182,215.09 at the end of 2020, after allocating the P&L.

Main debt

Trade payables and related accounts, which stand at €529 K, are primarily comprised of invoices for fees and the provision of services in the last few months of the year.

Tax and social security debt stands at €19.6 M and is mostly comprised of VAT on rights received and to be received.

"Other debt" (accrued expenses) representing 188.1 million euros primarily includes:

- rights to be paid to rights owners for which the SCPP did not yet receive the invoices at 31 December 2020,
- undistributed remuneration collected in 2020 and a small portion from before that, and which will be mainly distributed in 2021,
- the balance of "non-distributable" amounts pending allocation (2020 grant budget) and adjustments with the SPPF.

a-Withholdings

- The "Sound recording" withholding rate, which was 9.1% in 2019, increased to 12.9%. The withholding rate on "music video" rights and Private Audiovisual Copying remains set at 6%.
- The average withholding rate of the SCPP remained at 10.9% in 2020.
- With reference to the amount of the withholdings taken by the societies collecting remuneration for rights partially on behalf of the SCPP, the table on the following page shows the total withholding rate, i.e. successive debits by the different societies, accepted by SCPP members, representing 16.92% (compared to 13.94% in 2019 and 14.42% in 2018) if the costs of the additional missions carried out by the SCPP are taken into account and 14.51% (compared to 11.51% in 2019 and 12.04% in 2018) if this is limited to the costs of the SCPP as SPRD (cf. the table in the appendix).

b - Access to the “Sound Recording” database

The contribution of the ADAMI to the cost of the SCPP's producer database stands at €160 K, an amount based on the 2019 actual invoiced in 2020.

c - Extraordinary income and other income

This income is comprised of compensation obtained from "Piracy" litigation.

d - Expense transfers and provision reversals

External costs for combating piracy and legal consulting for defending the profession covered by the grant budget (€409 K),and revenue issued from the Top (€236 K) represent almost all of this account.

4/ CONCLUSION

The significant drop in collections from Equitable Remuneration and in particular that from clubs and public performances, could not be offset by other fees, which held up well overall despite the health crisis (-2%).

The drop in the amount distributed (-7,8%), was primarily due to the postponement in 2021 of the final distributions on sales.

The drop in collections during the 2020 financial period will primarily have an impact on distributions for financial periods 2021and 2022.

The table shows, for each type of remuneration collected by the SCPP, the withholdings which were applied, by rights year, by intermediate societies prior to collection by the SCPP, and those to be applied, at the time of distribution, also by rights year, by the SCPP. It is specified that rates are net of the use of financial income, for societies which exclusively collect (SPRE, COPIE FRANCE, SCPA) and are without the use of financial income for societies which also manage distribution tasks (PROCIREP, SCPP). Financial income for societies which exclusively collect is low, as these societies pay the amounts collected to their associates within a short period. The average management rate is that which includes the costs of the SCPP as a collection and distribution society, the average rate for missions also includes the cost of the missions entrusted to the SCPP by its associates and which are added to the society's costs of collection and distribution (in particular, the combating piracy and the financing of professional tools).

APPENDICES TO THE FINANCIAL REPORT

Section 1 - Presentation of the company

1.1. Presentation of the company

The corporate purpose of the SCPP, created in 1985, is the collective exercise of the rights of sound recording and music video producers. The collection and distribution of remunerations owed to sound recording producers or their successors individually due to the use of sound recordings or music videos – controls on sound recordings and music videos. The duration of the financial year is 12 months, beginning on 1 January and ending 31 December 2020. The balance sheet total before distribution for the period ending 31/12/2020 is 209,654,285 euros. The income statement for the period, presented in the form of a list, generated an accounted loss of 110,340 euros.

The notes and tables hereinafter form an integral part of the annual financial statements.

Section 2 - Accounting rules and methods

2.1. General rules

The annual financial statements for the period ending 31 December 2020 were drawn up according to the regulations of France's accounting standards authority No. 2014-03 of 5 June 2014 concerning the General Chart of Accounts, and in accordance with the provisions of accounting regulations 2000-06 and 2003-07 on liabilities, 2002-10 on asset amortisation and depreciation and 2004-06 on the definition, recognition and evaluation of assets as well as regulation no. 2017-07 pertaining to the recognition of author's rights.

General accounting methods were applied in compliance with the General Chart of Accounts, and in compliance with the conservatism principle, in accordance with the following basic hypotheses:

- Continuity in operations,
- Independence of periods,
- Consistency of accounting methods from one period to the next,

and in accordance with the general rules for drawing up and presenting the annual financial statements.

Only significant information is expressed. Unless mentioned otherwise, amounts are expressed in euros.

The basic method used for valuing items recorded in the accounts is the historical cost method.

The main methods used are presented hereinafter.

2.2. Method of presenting the management report and the income statement

Operations are resumed and presented using the "Management account" as defined in the provisions of Decree no. 98-1040 of 18 November 1998, appendix 1. This management account, in accordance with the decree of 18 November 1998, is completed with an income statement presented according to the provisions of the general chart of accounts.

2.3. Intangible fixed assets

Intangible fixed assets are comprised of:

- software purchased by the company,
- design costs for distribution software and databases, carried out by IT service providers or the SCPP's IT department, Internal costs are booked as fixed assets based on the costs of wages used in creating the developments.

All of these intangible fixed assets are depreciated using the straight-line method over three years.

2.4. Tangible fixed assets

Tangible fixed assets are recorded at their acquisition cost. Depreciation is calculated over the estimated lifespan of the goods according to the straight-line or declining balance methods as follows:

	Straight-line
Fixtures and fittings	8 years
Office equipment	5 years
IT equipment	3 to 5 years
Furniture	5 years or 8 years
Industrial equipment	5 years

2.5. Securities

Equity interests appear on the balance sheet at their historical cost or at their current value if the latter is lower.

2.6. Investment securities

Investment securities are recorded at their acquisition cost and, at the end of the financial year, the value of these securities is estimated on the basis of their market value.

Investment securities are comprised of capitalised S.I.C.A.V., mutual funds and negotiable certificates of deposit. In accordance with the company's articles of association, capital gains on these securities supplement the rights of producers of sound recordings.

2.7. Provisions for risks

The company recognises provisions for risks according to incurred litigation costs, likely to have an impact on its income and expenses.

2.8. Rules and methods concerning rights

2.8.1. Obligation as to grants

The SCPP must statutorily and pursuant to Article L 321-9 of the Intellectual Property Code devote a portion of the collected rights to grants: 25% of the amounts collected for private copying of sound recordings and all of the non-distributable amounts generated on years of rights after 1 August 2000.

This contribution is booked on the liabilities side of the balance sheet and the various payments made for this purpose are then deducted.

2.8.2. Collected and distributed rights

All of the rights collected by the company must be distributed.
The amount of rights collected or to be collected is therefore identical to the amount of rights distributed and to be distributed.
Rights to be distributed to producers are booked on the liabilities side of the balance sheet for their total amount including tax or for the total amount excluding taxes relating to rights from private audio copying and private audiovisual copying, and have only one deduction for grants linked with rights from private audio copying and private audiovisual copying.

2.8.3. Non-distributable sums of equitable remuneration

According to Article L321-9 of the Intellectual Property Code, sums collected starting on 1 August 2000 for equitable remuneration for radio broadcasting and communication in public places of commercial sound recordings, and which are non-distributable in accordance with the Intellectual Property Code and with International Agreements must be fully allocated to grants.

Equitable remuneration received before 1 August 2000 is not concerned by this change in legislation. The allocation of non-distributable amounts that will be observed for these amounts at the time of the next distribution is therefore subject to the rules that were previously defined by lawmakers.

These sums are booked on the liabilities side of the balance sheet.

Non-distributable equitable remuneration received after 1st August 2000 that the company has used for financing its grants, putting on live performances and for artist education.

Subsequent to the "Distributions II" agreement signed on 15 July 2011 between SCPP and SPPF, weighting and distribution procedures for equitable remuneration between companies are affected as follows.
Article 2.1 stipulates that the amounts of Equitable Remuneration collected for the rights year 2009 and subsequent years are distributed based on real distribution. Each party will be definitively assigned a share of the non-distributable amounts posted pursuant to article L. 214-2 of the Intellectual Property Code and in application of the legal criteria specified in appendix 1 of the agreement, less the amount withheld by each company from the share of these non-distributable amounts generated by the sound recordings managed by each company, equal to their share of distributable amounts, according to the weighting completed.

2.8.4. Provision of services: Statutory withholdings

Most of the SCPP's operating income is made up of statutory withholdings on rights distributed to members.
Rates of the statutory withholdings are set by the general meeting of partners.
Up to 31 December 2000, statutory withholdings were considered as acquired according to the following conditions:

- for rights on video recordings: when the credit notice is issued,
- for other rights: 80% during the period when the rights are collected and 20% during the period when the rights are distributed.

Since 1 January 2001, the statutory withholding is considered as acquired when the credit notice is issued, regardless of the type of right.
Statutory withholdings that are considered as acquired according to this method, but pertaining to rights in the process of distribution and not yet paid to producers, are booked separately on the asset side of the balance sheet, with income receivable.

2.8.5. Rights due by the users of telephone music-on-hold

On behalf of the SCPA, the SCPP ensures the administrative management of rights pertaining to Telephone music-on-hold for payment of a management commission of 20% on collected rights. Since 1998, the application of this management commission has a retroactive effect on the share of the collected rights that will be paid to the SPPF.
The amount generated by the management fees collected by the SCPP for collecting rights pertaining to telephone music-on-hold, stands at 554,067 euros at 31 December 2020.

Since 2005, the amounts received during a given period have been considered as sums collected during this same rights year. These rights are booked based on payments received in the current financial period, and no longer based on the rights period.

2.9. Joint SCPP and SPPF IT costs

Up to 31 December 2010, in order to improve the accuracy and reliability of the respective distributions of the SCPP and of the SPPF, the latter had decided to share their costs for managing the social catalogue and distribution costs. The two companies invoiced the SCPA, with proof, for their IT expenses. The SCPA then re-billed each party for its share in the total of its expenses definitively determined on the basis of the average share of the temporary distribution for the calendar year, for the calendar year in which the costs were incurred.

Subsequent to the "Distributions II" agreement signed on 15 July 2011 between the SCPP and the SPPF, this clause on the sharing of IT expenses between the different parties has been repealed. Therefore, no cost incurred in the managing of the social catalogue and distribution has been re-billed by the SCPP and the SPPF to the SCPA since 2013.

- (2) Total rights are equal to the sum of billing and the provision for the period minus the provision from the previous period (excluding adjustments).
- (3) This concerns adjustments related to the litigation in principle of Copie France.

3.1.2. Rights to be distributed

Rights to be distributed are shown in the table on the following page for their entire amount excluding tax, after allocation of the 25% mandatory share for grants for rights stemming from the remuneration of Private Audio Copying and Private Audiovisual Copying, and after deduction of the share of the statutory withholdings already booked as a resource for management of the SCPP.

Details by collection year for the sums to be distributed are shown in the following tables.

Only items that do not pertain to the company's ordinary activities are recognised in extraordinary income.

Extraordinary income for the year amounts to 54,884 euros consisting of:

- Income linked to anti-piracy disputes in the amount of 21,551 euros;
- Income from participation in the works of the GECINA premises in the amount of 33,333 euros.

The cancellation of the unemployment benefit provision for 3,157 euros was recognised as an extraordinary expense. Consequently, the extraordinary income stands for the 2020 period at 58,041 euros.

3.3.5. Engagement of Employees

Employee profit-sharing stands, for the period, at 351,875 euros compared to 188,871 euros for the previous period.

Section 4 - Other information

4.1. Employee breakdown

	2020	2019
Categories	Average number of employees during the year	Average number of employees during the year
Executives	24	26
Employees	18	17
Fixed-term contracts	3	4
Total	45	47

4.2. Remunerations allocated to directors and to members of management bodies

This information is not provided, as it would result in revealing individual remuneration.

4.3. Remuneration of auditors

The amount of fees booked for the diligences pertaining to the mission of statutory audit of the annual financial statements by the auditor stands at 20,000 euros, over the period.

4.4. Pension commitments

Indemnities are paid to company employees when they take their retirement. Taking the age and seniority of the employees into account, the amount of gross indemnities (excl. social contributions) calculated at the closing of the period stand at 51,738 euros. No provision has been accounted for at 31 December 2020.

4.5. First-request guarantee

Some SPRD wanted Copie France to place some of the amounts likely to be reimbursed subsequent to a decision by the Council of State in reserve (cancellation of decision no. 11 of the private copying commission).

The members of the Board of directors, which met on 5 July 2011, unanimously confirmed that they authorised the SCPP to act as the guarantor of the SCPA (first-request financial guarantee to the benefit of COPIE France representing 2,449,575 euros, created with the Société Générale bank) in the context of the cancellation of decision no. 11 of the private copying commission.

The full release of this guarantee took place on 2 November 2020.

4.6. S.I.C.A.V. securities

On 24 March 2010, the SCPP pledged SICAV with the Société Générale bank to the benefit of the lessor of the premises for an initial amount of 122,883 euros. At 31 December 2011, this security was increased to 208,975 euros. At 31 December 2020, this security was increased to 234,145 euros.

4.7. Corporate tax

In 2020, the tax results for the SCPP show a deficit.

Consequently, the company does not owe any tax for this period.

4.8. Significant events

- Impacts of Covid 19

The SCPP followed the recommendations of the health authorities and SCPP employees have been placed in teleworking for most of the year. One person was placed into partial unemployment, during the first confinement. Some employees occasionally worked from the SCPP offices to carry out tasks that could not be performed remotely. Collections are down due to the crisis, mainly Equitable Remuneration, which sustained a drop of 19%. Overall, SCPP's collections are down by 10.5%.

- Equitable remuneration: ruling of the Court of Justice of the European Union

The ruling of the Court of Justice of the European Union (CJEU) of 8 September 2020 established the principle according to which member States are not allowed to "exclude performers who are nationals of States outside the European Economic Area (EEA) from the right to a single equitable remuneration". This ruling could enter into force as from 2021 with 5 years' retroactive effect.

As a result of this change, a dispute initiated between SCPP and SPPF. In effect, previously the distribution between SPPF and SCPP was carried out on all of the amounts collected (including non-distributable amounts which represent approximately 5% of the amounts collected) on the basis of the distributable amounts, which gave rise to a distribution of approximately:

- 70% for SCPP
- 30% for SPPF

As they considered that there would be no more "non-distributable amounts" in accordance with the case law, the SCPP claimed a higher distribution % of approximately 76% versus 24% for the SPPF. It was decided that the difference (76-70, i.e. 6%) would remain in reserve in the SCPA accounts.

As a reminder, the "non-distributable amounts" were intended for artistic and cultural action and took the form of grants. As a result of the changing legislation, the 2021 grants shall remain placed in the reserve in the SCPP accounts.

- Special grants for producers

The non-distributable amounts allowing for the financing of grants amounting to 2 million euros awarded to over 200 producers. For financial year 2020, this amount is considered as an advance.

For 2021, it was decided that this advance would be converted into a grant with conditions precedent.

- End of the declining balance method

It was decided that computer equipment would no longer be depreciated using the declining balance method. All fixed assets are now depreciated according to the straight-line method.

4.9. Off balance sheet commitments

None.

4.10. Events subsequent to the closing

On the date of closing the 2020 accounts, employees are still placed in teleworking and the return to the SCPP offices has not yet been decided.

According to the Company's assessments, the impact of the health crisis is estimated at a fall of 10% in 2021 collections, mainly due to the drop in collections of Equitable Remuneration.

1/ NUMBER OF REFUSALS TO GRANT AN OPERATING LICENSE

The SCPP cannot authorise the licenses for which it has been mandated. In accordance with the provisions of the 3rd paragraph of article L.324-7 of the Intellectual Property Code, the SCPP did not refuse to grant any operating license relating to its mandates in effect during financial year 2020.

2/ DESCRIPTION OF THE LEGAL STRUCTURE AND OF THE GOVERNANCE OF THE SCPP

La SCPP is a *société civile* governed by articles 1832 et seq. of the French Civil Code and by the provisions of title II of book III of the Intellectual Property Code.

The company is administered by a board of directors comprised of associates elected by the General Shareholders' Meeting. The Board of Directors appoints a Managing Director, as Manager of the company.

The Supervisory Board, comprised of associates elected by the General Shareholders' Meeting, carries out the supervisory tasks entrusted to it by law and by our articles of association.

3 LIST OF THE ENTITIES THAT THE SCPP CONTROLS IN TERMS OF ARTICLE L233-16 OF THE FRENCH COMMERCIAL CODE

The SCPP currently controls more than half of the voting rights in the board of directors and the General Shareholders' Meeting of the SCPA, a joint venture company with the SCPP and the SPPE.

The SCPA has capital of €304.90, 50% of which is held by the SCPP. The net result of the SCPA for the 2020 period is a profit of €260,610.79. The net and gross book value of the securities held is €152.45.

4 / TOTAL AMOUNT OF REMUNERATIONS PAID TO PEOPLE MENTIONED IN THE FIRST PARAGRAPH OF ARTICLE L.323.13 OF THE INTELLECTUAL PROPERTY CODE

This amount, which corresponds to an individual remuneration, cannot be disclosed. This was subject to a declaration of interests that can be consulted, such as declarations of interests of directors, by the associates of the SCPP as provided for by law and the company's articles of association.

5/ USES OF THE DEDUCTED AMOUNTS FOR THE PURPOSES OF SOCIAL, CULTURAL OR EDUCATIONAL SERVICES

The SCPP does not deduct any amounts for the purposes of social, cultural or educational services. However, the SCPP, at the request of its associates, fulfils certain missions that do not relate to rights management which are clearly identified in the financial report (mission expenses). Moreover, the SCPP, as required by law, uses for grants the non-distributable amounts of the remuneration for private copying and the equitable remuneration for commercial sound recordings, as detailed in Appendix 3 of this report.

6/ REPORT OF THE PERMANENT AUDITING COMMISSION ON COLLECTIVE MANAGEMENT SOCIETIES

As of the date this report was written, the permanent Auditing Commission on authors rights' collective management societies has not yet made its fourteenth annual general report public.

This report should be available on the Cour des Comptes website (www.ccomptes.fr) in the section entitled "Commission permanente de contrôle des SPRD". It will also be available on the SCPP website.

Copies of the general report should be available at the General Shareholders' Meeting of 24 June.

In addition, the SCPP will send a copy to any associate who requests one.

Grants approved by the SCPP in 2020

IV.

The purpose of this report is, as every year, to report to the shareholders of the SCPP and to the Ministry of Culture on the use of the sums allocated either directly or indirectly by the SCPP for grants.

1/ FINANCING GRANTS

The SCPP had, for this purpose, in 2020, a total amount of 23,038,244 euros, including:

- €6,855,554, corresponding to 25 % of Private Copying, that the SCPP must dedicate to Grants,
- 7,654,591 euros, taken from the non-distributable amounts of Equitable Remuneration distributed during the previous period, incl. 2,936,262 Euros which had to be placed in reserve following the ECJ ruling of 8 September 2020,
- 4,000,000 Euros, from the balance of non-distributable technical amounts,
- 3,780 000 Euros, corresponding to the amount of the Health Crisis support scheme allocated to grants, from the balance of non-distributable technical amounts. ⁽¹⁾
- 3,277,359 Euros which is the balance of the 2019 Grant budget ("Selective Assistance" balance: 2,461,098 Euros, "Drawing Rights" balance: 816,261 Euros),
- 103,371 Euros in grants approved during previous periods that were cancelled in 2020 and reincorporated into the Selective Assistance budget for 2020,
- and 303,631 Euros in "Drawing Rights" grants approved during previous periods that were cancelled by the producers in 2019 and reincorporated into the budget for 2020.

2/ ALLOCATING THESE SUMS

The SCPP's entire grant budget was allocated by the Board of Directors as follows:

- a - 14,084,951 euros for the "Drawing Rights" budget (which is 14,225,621 euros for the initial budget from which 68,553 euros of 2020 Drawing Rights waivers have been subtracted) and 72,117 euros of beneficiaries of selective assistance prior to the acceptance of the 2020 final budget).
- b - 8,953,293 euros for the "Selective Assistance" budget (which is 8,566,252 euros of the initial budget, 103,371 euros in cancelled grants from prior years and reincorporated, 68,553 euros of 2020 Drawing Rights waivers, 72,117 Euros of beneficiaries of Selective Assistance prior to the acceptance of the 2020 final budget) and 143 000 Euros of 2019 Restaurants du Cœur grants).

The "Selective Assistance" budget was allocated in accordance with the decision of the General Shareholders' Meeting for:

- grants for sound recordings: 4,310,753 euros (4,221,078 euros + 6,487 euros in cancelled grants from prior years + 22,851 euros of 2020 Drawing Rights waivers + 60,337 Euros of beneficiaries of Selective Assistance prior to the acceptance of the 2020 final budget).
- grants for music videos: 1,166,983 euros (844,216 euros + 24,900 euros in cancelled grants from prior years + 22,851 euros of 2020 Drawing Rights waivers + 263,236 euros of the balance of the 2020 live performance budget + 11 780 Euros of beneficiaries of Selective Assistance prior to the acceptance of the 2020 final budget).
- grants for live performances: 464,760 euros (633,161 Euros + 71,984 euros in cancelled grants from prior years + 22,851 euros of 2020 Drawing Rights waivers – balance remaining of 263,236 added to the 2020 music video budget).
- grants for special projects: 3,010,797 Euros (2,867,797 Euros + 143,000 Euros 2019 Restaurants du Cœur grants) including 400 000 Euros for Marketing grants.

3/ ALLOCATED GRANTS

During fiscal 2020, the Commission met 12 times to examine 1,643 grant request applications (1,230 in 2018 and 1,330 in 2019). The Board of Directors granted, as proposed by the Commission, 1,440 grants (1,080 in 2018 and 1218 in 2019) for an amount of 21,982,577 euros⁽²⁾ (corresponding to 12,868,644 euros in terms of "Drawing Rights" and 9,113,933 Euros in terms of Selective Assistance).

- 87.64 % of the requests were satisfied.

The balance of the "Selective Assistance" budget stood at the end of 2020 at 3,120,792 Euros, and that of the "Drawing Rights" budget at 1,216,309 Euros.

(3) Certain grants were carried forward to 2021 due to the health crisis and the cancellation of certain projects.

4/ BENEFICIARIES

In 2020,

- 84.12% of the SCPP's grant budget was directly allocated to phonographic producers or to their licensees, corresponding to 18,492,421 Euros.
- 5.76% to training institutions or bodies, corresponding to 1,266,514 Euros.
- 1.77% to special projects, corresponding to 388,900 Euros.
- 2.11% to phonographic producers within the framework of agreements with performance venues, corresponding to 464,760 Euros.
- 6.23% in terms of rights defending activities, corresponding to 1,369,982 euros.

5/ THE COST OF MANAGING GRANTS

The cost of managing grants is covered by the company's general budget. The SCPP does not take any sums from the grant budget in order to finance the operation. Costs for this management are however estimated for 2020 at 181,022 euros.

6/ ALLOCATION PROCEDURES

All requests for grants (other than those pertaining to special projects) are submitted to an allocation Commission of which its 9 members are elected each year by the company's General Shareholders' Meeting. This Commission, in compliance with the rules set forth by the Board of Directors and which all of the requesters are informed of⁽⁴⁾, makes a proposal to the Board of Directors: for selective assistance, on the allocation or not of a grant and the amount accorded, and, for applications using drawing rights, after a check on eligibility and that the requested amount complies with current ceiling rules, on the allocation of the grant. The Board of Directors approved by the General Shareholders' Meeting, after having heard a representative of the Commission, decides on whether or not to approve the proposed grants.

The payment of grants is conditional upon the declaration of the titles mentioned in the assisted projects in the SCPP catalogue (during the payment of the first part for video music projects and during the payment of the balance for phonographic creation projects).

50% of the grant is paid before the project is carried out, and the remaining 50% is paid on presentation for:

- creating sound recordings: of 2 CDs or the screen shot of available tracks on a download site. (A check is carried out via sampling of one "Drawing Rights" dossier and one "Selective Assistance" dossier per month, in order to make sure that the allocated grant does not represent more than 50% of the actual recording costs until the commission of 30 April 2020 and 65% as of the Commission of 29 May 2020). The payment of the balance of the grant is conditional upon the declaration of the titles mentioned in the assisted project in the SCPP catalogue.
- music videos: a DVD copy of the clip, or the screen shot of the video available on a broadcast site, the copy of the audiovisual production contract or invoices paid to produce the clip, making it possible to check that the allocated grant does not represent more than 70% of actual production costs until the commission of 30 April 2020 and 95% as of the Commission of 29 May 2020. Music videos must be declared in the SCPP catalogue.
- the marketing grant: if the album is already marketed at the time of submitting the application, the grant will be paid in one instalment, on prior presentation of the physical or digital album declared in the SCPP catalogue and following the provision of invoices evidencing the funding making it possible to check that the allocated grant does not represent more than 50% of the funding with a ceiling of 20,000 Euros.
- If the album is not yet marketed at the time of submitting the application, the grant will be paid in two instalments: 50% paid on notification of the award of the grant and 50% paid on presentation of the physical or digital album declared in the SCPP catalogue as well as the invoices evidencing the funding making it possible to check that the allocated grant does not represent more than 50% of the funding with a ceiling of 20,000 Euros. These elements must be confirmed no later than one year following the award of the grant.

The verifications concerning the creation of sound recordings are submitted to the Commission for approval only when the amounts granted need to be revised. For the marketing grant all of the verifications are subject to the approval of the Commission.

The first half of the grant is recovered by the SCPP if the project does not take place. For the marketing grant if the minimum amount of the funding fails to reach a minimum ceiling of 15,000 Euros (5,000 Euros for classical music and jazz), the grant will be cancelled and where the first instalment has been disbursed, it must be reimbursed.

Only grants allocated for artist training and show-cases, in performance venues that are approved by the SCPP, are paid in full in a single payment after proof that they have taken place and following declaration of the titles of the album that are the subject of the promotion campaign in the SCPP catalogue.

(4) These rules are mentioned on the grant request application.

Activity report of the Anti-Piracy Unit Year 2020/2021

IV.

COMBATING PIRACY

Despite the difficulties associated with the health crisis and the various confinements, in 2020/2021, the SCPP's Anti-Piracy Unit conducted a host of initiatives to block access to well-known illegal sites from France (torrent sites and link sites).

New actions were also initiated against illicit "stream-ripping" sites.

The Anti-Piracy Unit provides daily notifications about illegal links that allow the unauthorised downloading of music content hosted on storage spaces. Hundreds of thousands of files of illegal music content have consequently been deleted this year.

Notifications are also sent to the Google and Bing search engines every day requesting the de-listing of illegal links.

In addition, the SCPP's sworn officials send the HADOPI reports on the illegal provision of sound recordings and music videos belonging to its members' catalogues. These seizures have allowed HADOPI to send out several million Warning Messages to Internet users concerned since the beginning of its activity.

1/ FIGURES FOR 2020/2021

- Within the framework of implementing the "Creation and Internet" law, the SCPP's sworn officials send the HADOPI Rights Protection Commission, thousands of reports on the illegal availability of sound recordings and music videos on peer-to-peer networks, on a daily basis. Over the past period, more than 1 million reports were sent by the SCPP to HADOPI. All these reports focus on a varied catalogue (Variety, Rap, Rock, Dance, RnB, Classic, Jazz, etc.).
- This year, the Anti-Piracy Unit handled 37 litigation files (20 Civil and 17 criminal), in addition to files concerning enforcement procedures, as well as HADOPI proceedings follow-up files (settlement proceedings and civil party complaints before the Police Court).
- Approximately 269,000 illegal links and pirate websites, corresponding to over 2.7 million MP3 files, were deleted subsequent to the SCPP sending notice and take-down letters. The sources that provide these links, as well as mirror sites and proxies are also subject to de-listing requests to the search engines Google and Bing, together with sites that do not comply with take-down requests or to which notice cannot be sent, which amounts to hundreds of thousands of URLs de-listed over the past year.
- The Anti-Piracy Unit also sent out notices and take-down letters relating to posts on social networks, including in particular Twitter and Telegram.
- Advertisements concerning the sale of unauthorised CDs were also removed from the on-line sales sites Amazon, Leboncoin and eBay.
- 326 verifications were carried out and certificates of offence were drawn up by sworn agents concerning primarily the sectors of telephone music-on-hold and television channels.

2/ CURRENT PROCEEDINGS

- **Actions taken against Newsgroups**

Following an order issued on the basis of a joint motion, the Paris Court of Justice authorised an Internet Service Provider to extend the suspension of 41 music newsgroups offering unauthorised downloads of music files.

- **Actions in blocking illegal sites**

Following civil court proceedings initiated by the SCPP, a number of blocking decisions were handed down by the High Court of Paris on well-known pirate sites such as in particular (BTDB, OXTORRENT, SKYTORRENTS etc.). Proceedings aimed at updating decisions previously attained following changes to the domain name extension of the sites concerned, which attempted to override the blocking measures handed down against them (YGGTORRENT, TIREXO, TORRENT9 etc.), also continued to be filed by the SCPP, which gave rise to favourable legal rulings. These decisions correspond to a total of 57 sites and 156 domain names. The SCPP also acts as a liaison with Google in order to ensure that the sites and domains indicated in the legal rulings obtained are delisted.

It is specified that under the terms of all of these rulings, the costs of the blocking measures remain payable by the internet service providers.

- **Actions taken against illegal “stream ripping” sites**

Civil proceedings were filed by the SCPP against new illegal stream ripping sites located in France, making it possible without the authorisation of the producers to convert on line, into downloadable audio and video files, music videos concerning the corporate catalogue of the SCPP proposed as streaming by various sites such as YouTube.

After the closure in France of a site of this nature, following proceedings initiated by the SCPP, new court proceedings were brought that led to the closure of 2 other illegal “stream ripping” sites.

- **Criminal proceedings against publishers of illegal download sites**

The criminal proceedings monitored by the Anti-Piracy Unit regularly give rise to court conviction decisions that are of a dissuasive nature. For example, two recent decisions for the Tours Criminal court of 17 November 2020, and the Livourne Criminal Court of 27 April 2021, gave rise to the conviction of publishers of illegal sites making available to the public, without authorisation, sound recordings from the SCPP catalogue.

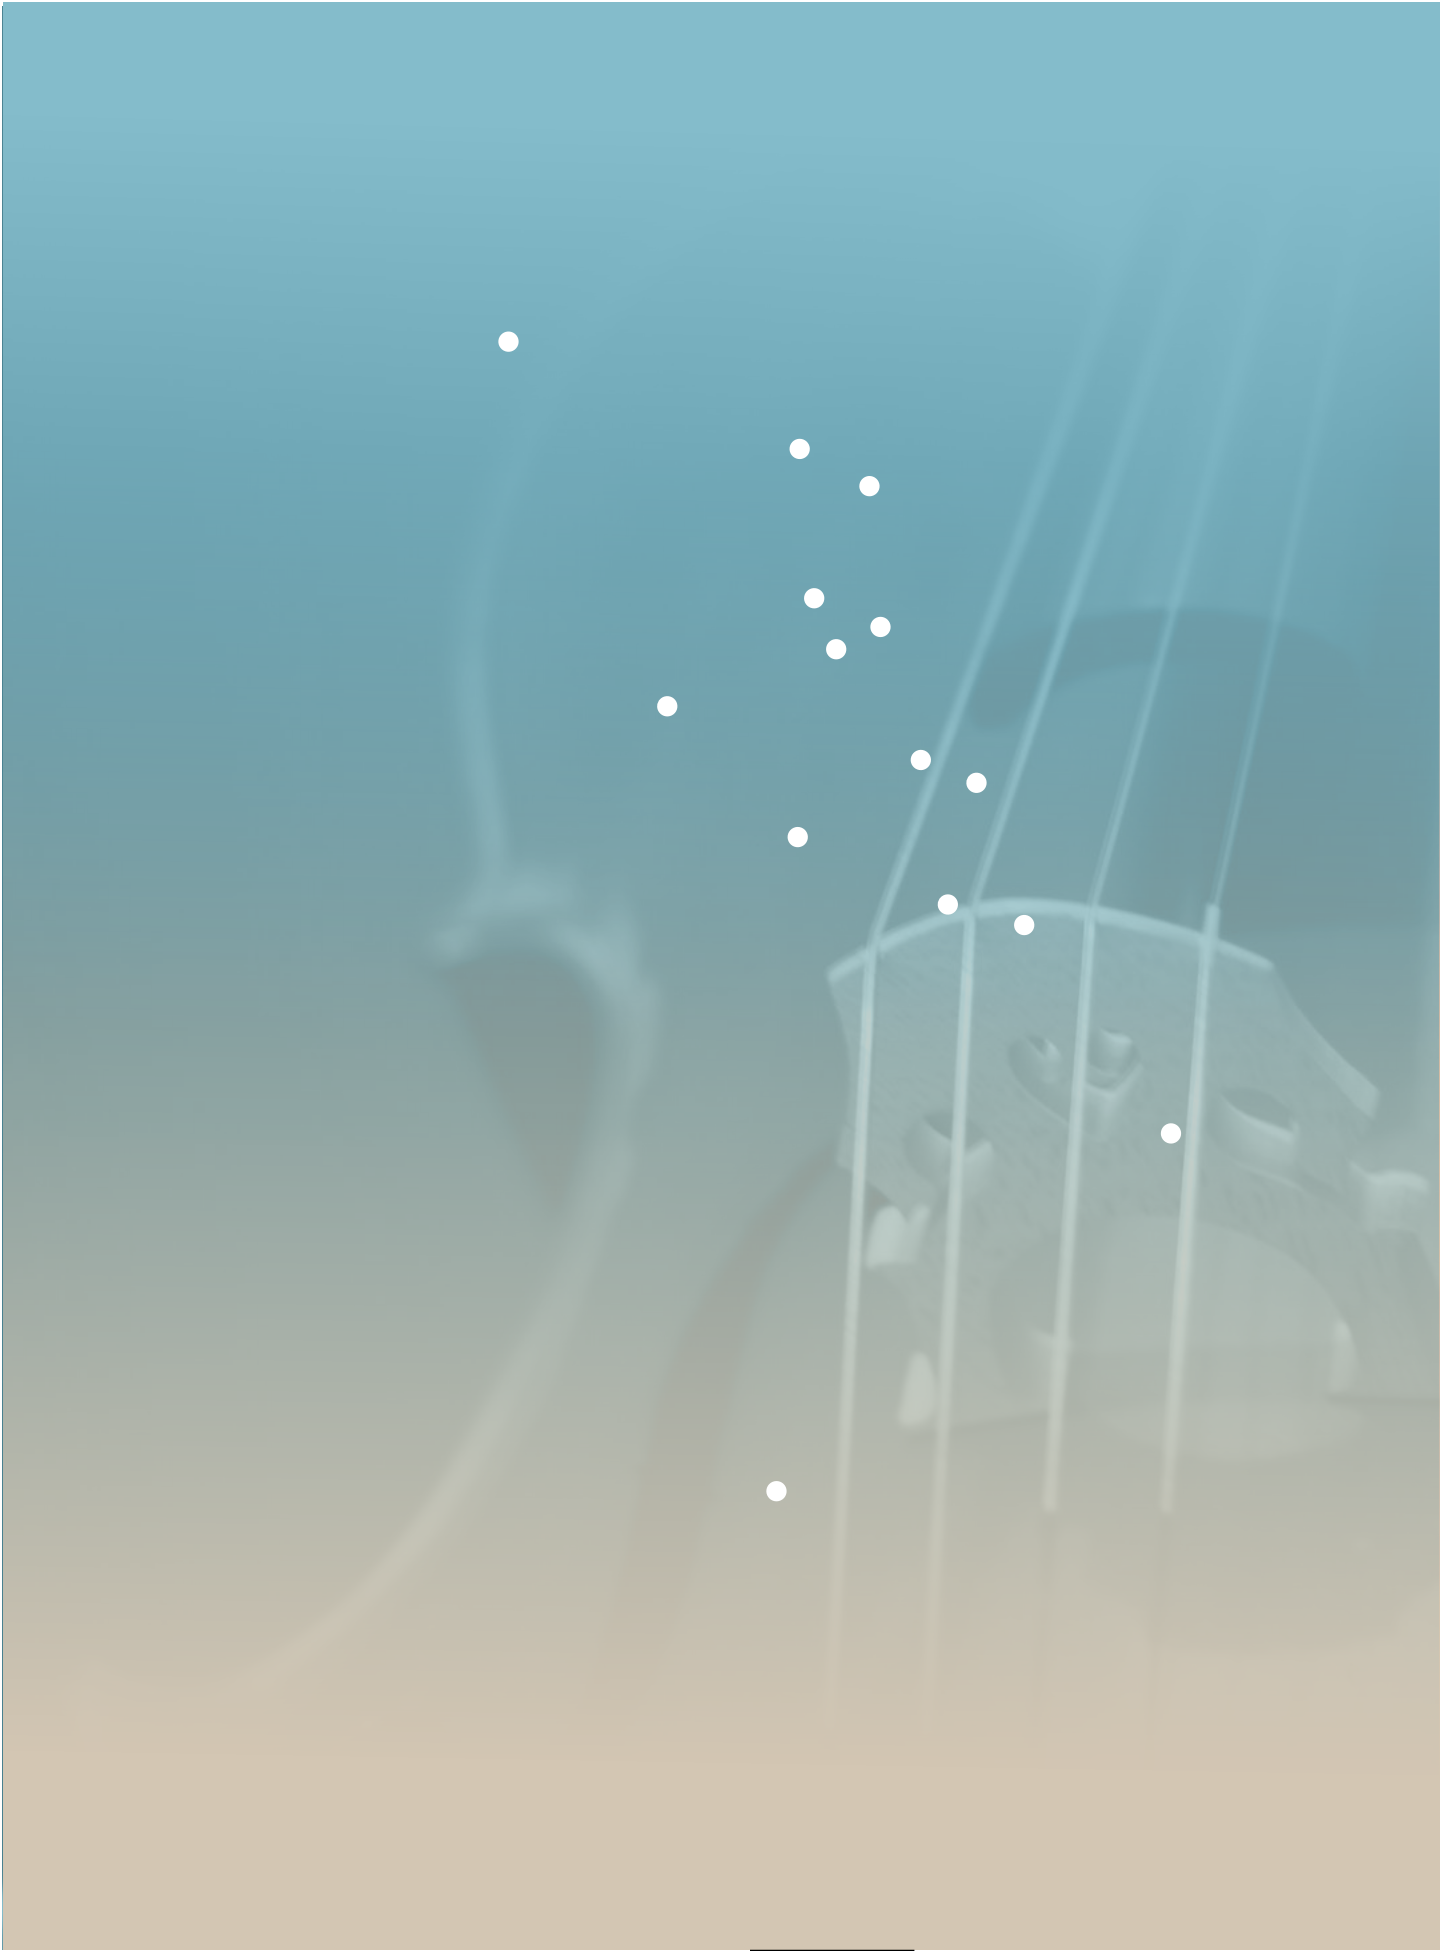

3/ RELATIONS WITH INSTITUTIONS AND PROFESSIONAL ORGANISATIONS

The SCPP is a member of the Union des Fabricants (UNIFAB) (Manufacturer’s Union).

The SCPP’s Anti-Piracy Unit is usually involved in (which was not the case this year due to the health crisis) training programmes organised by the Regional Customs Departments which are used to improve institutional awareness concerning cases of music piracy (physical media).

Dealings with the SACEM and ALPA give rise to joint contributions to cases of legal action.

Lastly, the Anti-Piracy Unit enjoys privileged relations with the IFPI (International Federation of the Phonographic Industry) and its various national groups, which gives rise to the regular exchange of information on the strategies developed to address music piracy.

COMMUNICATIONS DEPARTMENT ACTIVITY REPORT 2020 – 2021

The SCPP's communication aims to fulfil four objectives:

- **Regularly inform** its members of SCPP activity.
- Allow SCPP members to **meet** the players in the music sector via events and professional fairs.
- **Support** lobbying actions and the efforts of the anti-piracy unit in their mission of defending producers' rights.
- **Consolidate** the reputation of the SCPP by positioning it as the number one partner of producers of sound recordings.

1 / INFORMATION FOR MEMBERS

In the first quarter of 2020, marked by the arrival of the health crisis, the Communications department put in place an extensive communications plan aimed at supporting the "2020 SCPP Support scheme". Throughout the year, the Communications Department disseminated information issued by various bodies granting financial aid and acted in an advisory capacity towards its members in order to direct them as best as possible towards these bodies.

The departure of Thierry Chassagne, Managing Director of Warner Music France, replaced by Olivier Nusse, Managing Director of Universal Music France as Chairman of the SCPP received widespread coverage in the press and on social networks. The SCPP thanked Thierry Chassagne for his exceptional work during the five years of his chairmanship.

The SCPP also announced the opening of a new grant facility to licensee members of the SCPP, aimed at covering a portion of their "marketing" expenses.

1.1 / The SCPP Newsletter

A genuine communications link with SCPP members, the SCPP's newsletter informs its members of the activity and concerns of the SCPP.

1.2 / The SCPP website: Launch of "My SCPP Space"

On the occasion of the launch of its new website (www.scpp.fr), in January 2020, the SCPP opened a new space dedicated to its independent members. Among other things, this space allows them to instantly monitor their rights and to file their returns in just a few clicks. Comprising a personalised dashboard summarising the various maturities concerning the distributions and grants approved by the SCPP, it allows users to instantly review the distributions. This portal, designed by the SCPP teams in collaboration with a panel of independent producers allows each producer to manage their phonographic catalogue easily.

1.3 / The SCPP's presentation video

The SCPP produces short videos for presenting the activities of the SCPP and the SCPA. The production of video clips aimed at promoting artists performing in the SCPP Concerts was postponed until 2021.

2 / EVENTS AND PROFESSIONAL FAIRS

2.1 / MIDEM

Given the health situation linked to the Covid-19 pandemic, MIDEM could not be held in 2020.

2.2/ The SCPP Concerts

The SCPP has set up a new grant system for its members that makes prestigious venues available to upcoming artists at major festivals or music shows. The SCPP has enabled around 20 artists from all musical genres to perform on different stages at three festivals: Musicora, MaMA, le Printemps de Bourges. Given the health situation linked to the Covid-19 pandemic, the SCPP Concerts could not be held in 2020.

2.3/ SCPP general shareholders' meeting

Given the health situation linked to the Covid-19 pandemic and the restrictions on movement and meetings imposed by the Government, the Ordinary Exceptional General Meeting of the members of the SCPP was exceptionally held in camera, without the physical presence of its associates and other persons being entitled to attend, on Wednesday 16 December 2020 at 2:30 pm at the SCPP's registered office.

3/ DEFENDING PRODUCERS' RIGHTS

The SCPP aimed to inform possible offenders, producers and public authorities of the risks incurred when the rights of producers are not respected.

3.1/ Combating piracy and promoting legal sites

In order to encourage the development of legal downloading platforms, the SCPP is a partner of the "Tous pour la musique" association (www.touspourlamusique.org).

3.2/ Relations with the press

The communications department regularly informs the regional and national press of the favourable legal rulings obtained by the anti-piracy unit. Press lunches could not be held this year due to the health crisis. Press communication was mainly achieved by way of press releases.

3.3/ Social networks

Information from the management is also disseminated via the SCPP's Twitter account (@scppinfo) and on its Facebook page. The SCPP has close to 2150 Twitter subscribers.

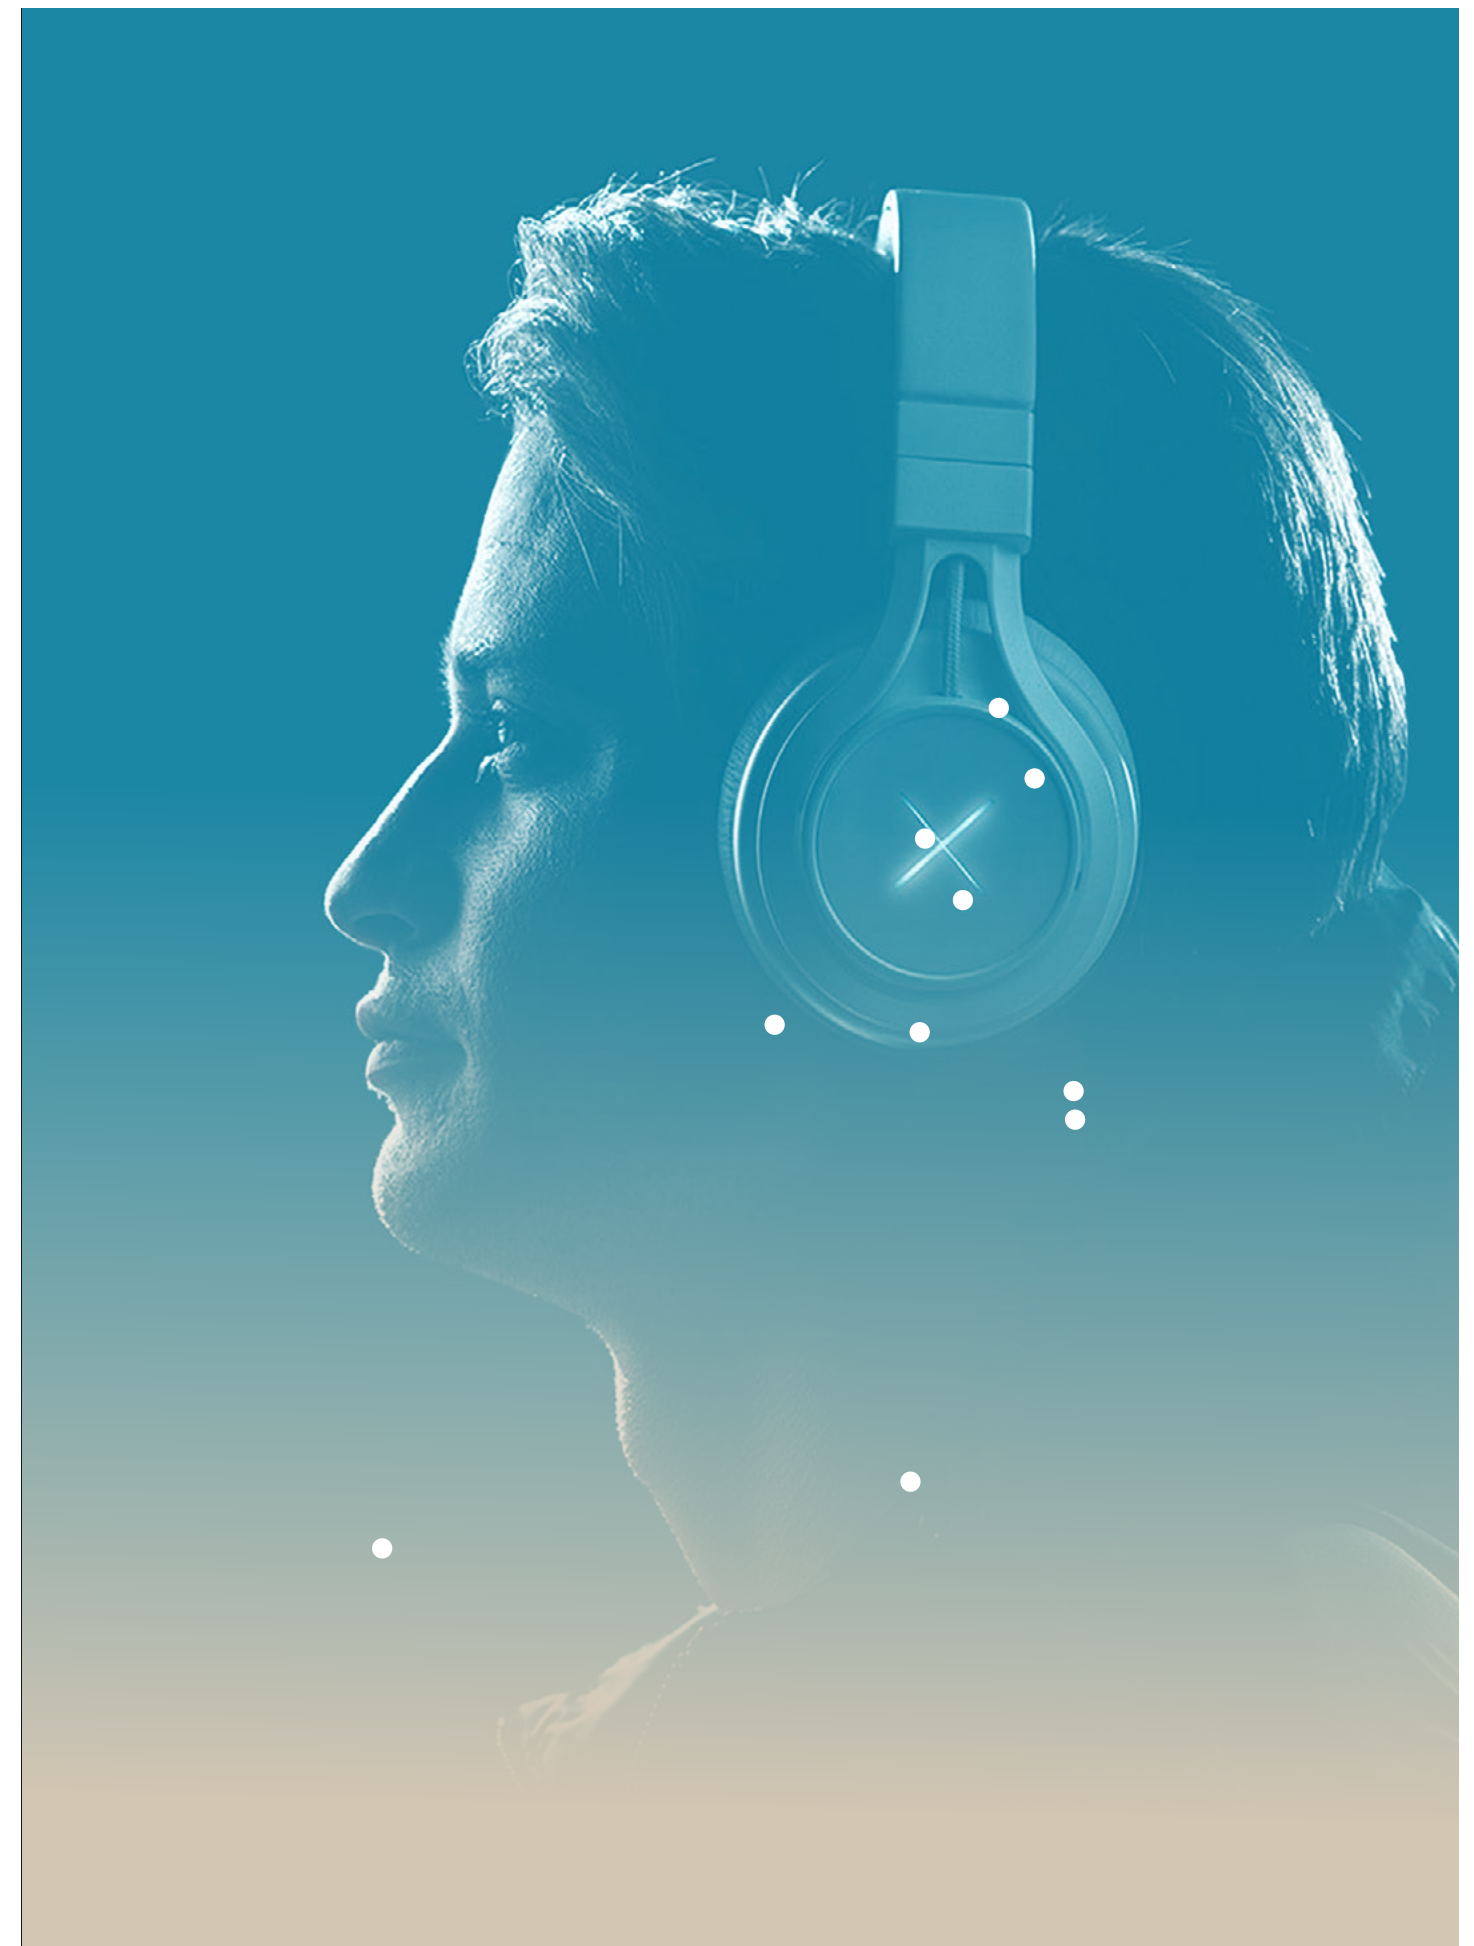

4/ CONSOLIDATING THE REPUTATION OF THE SCPP

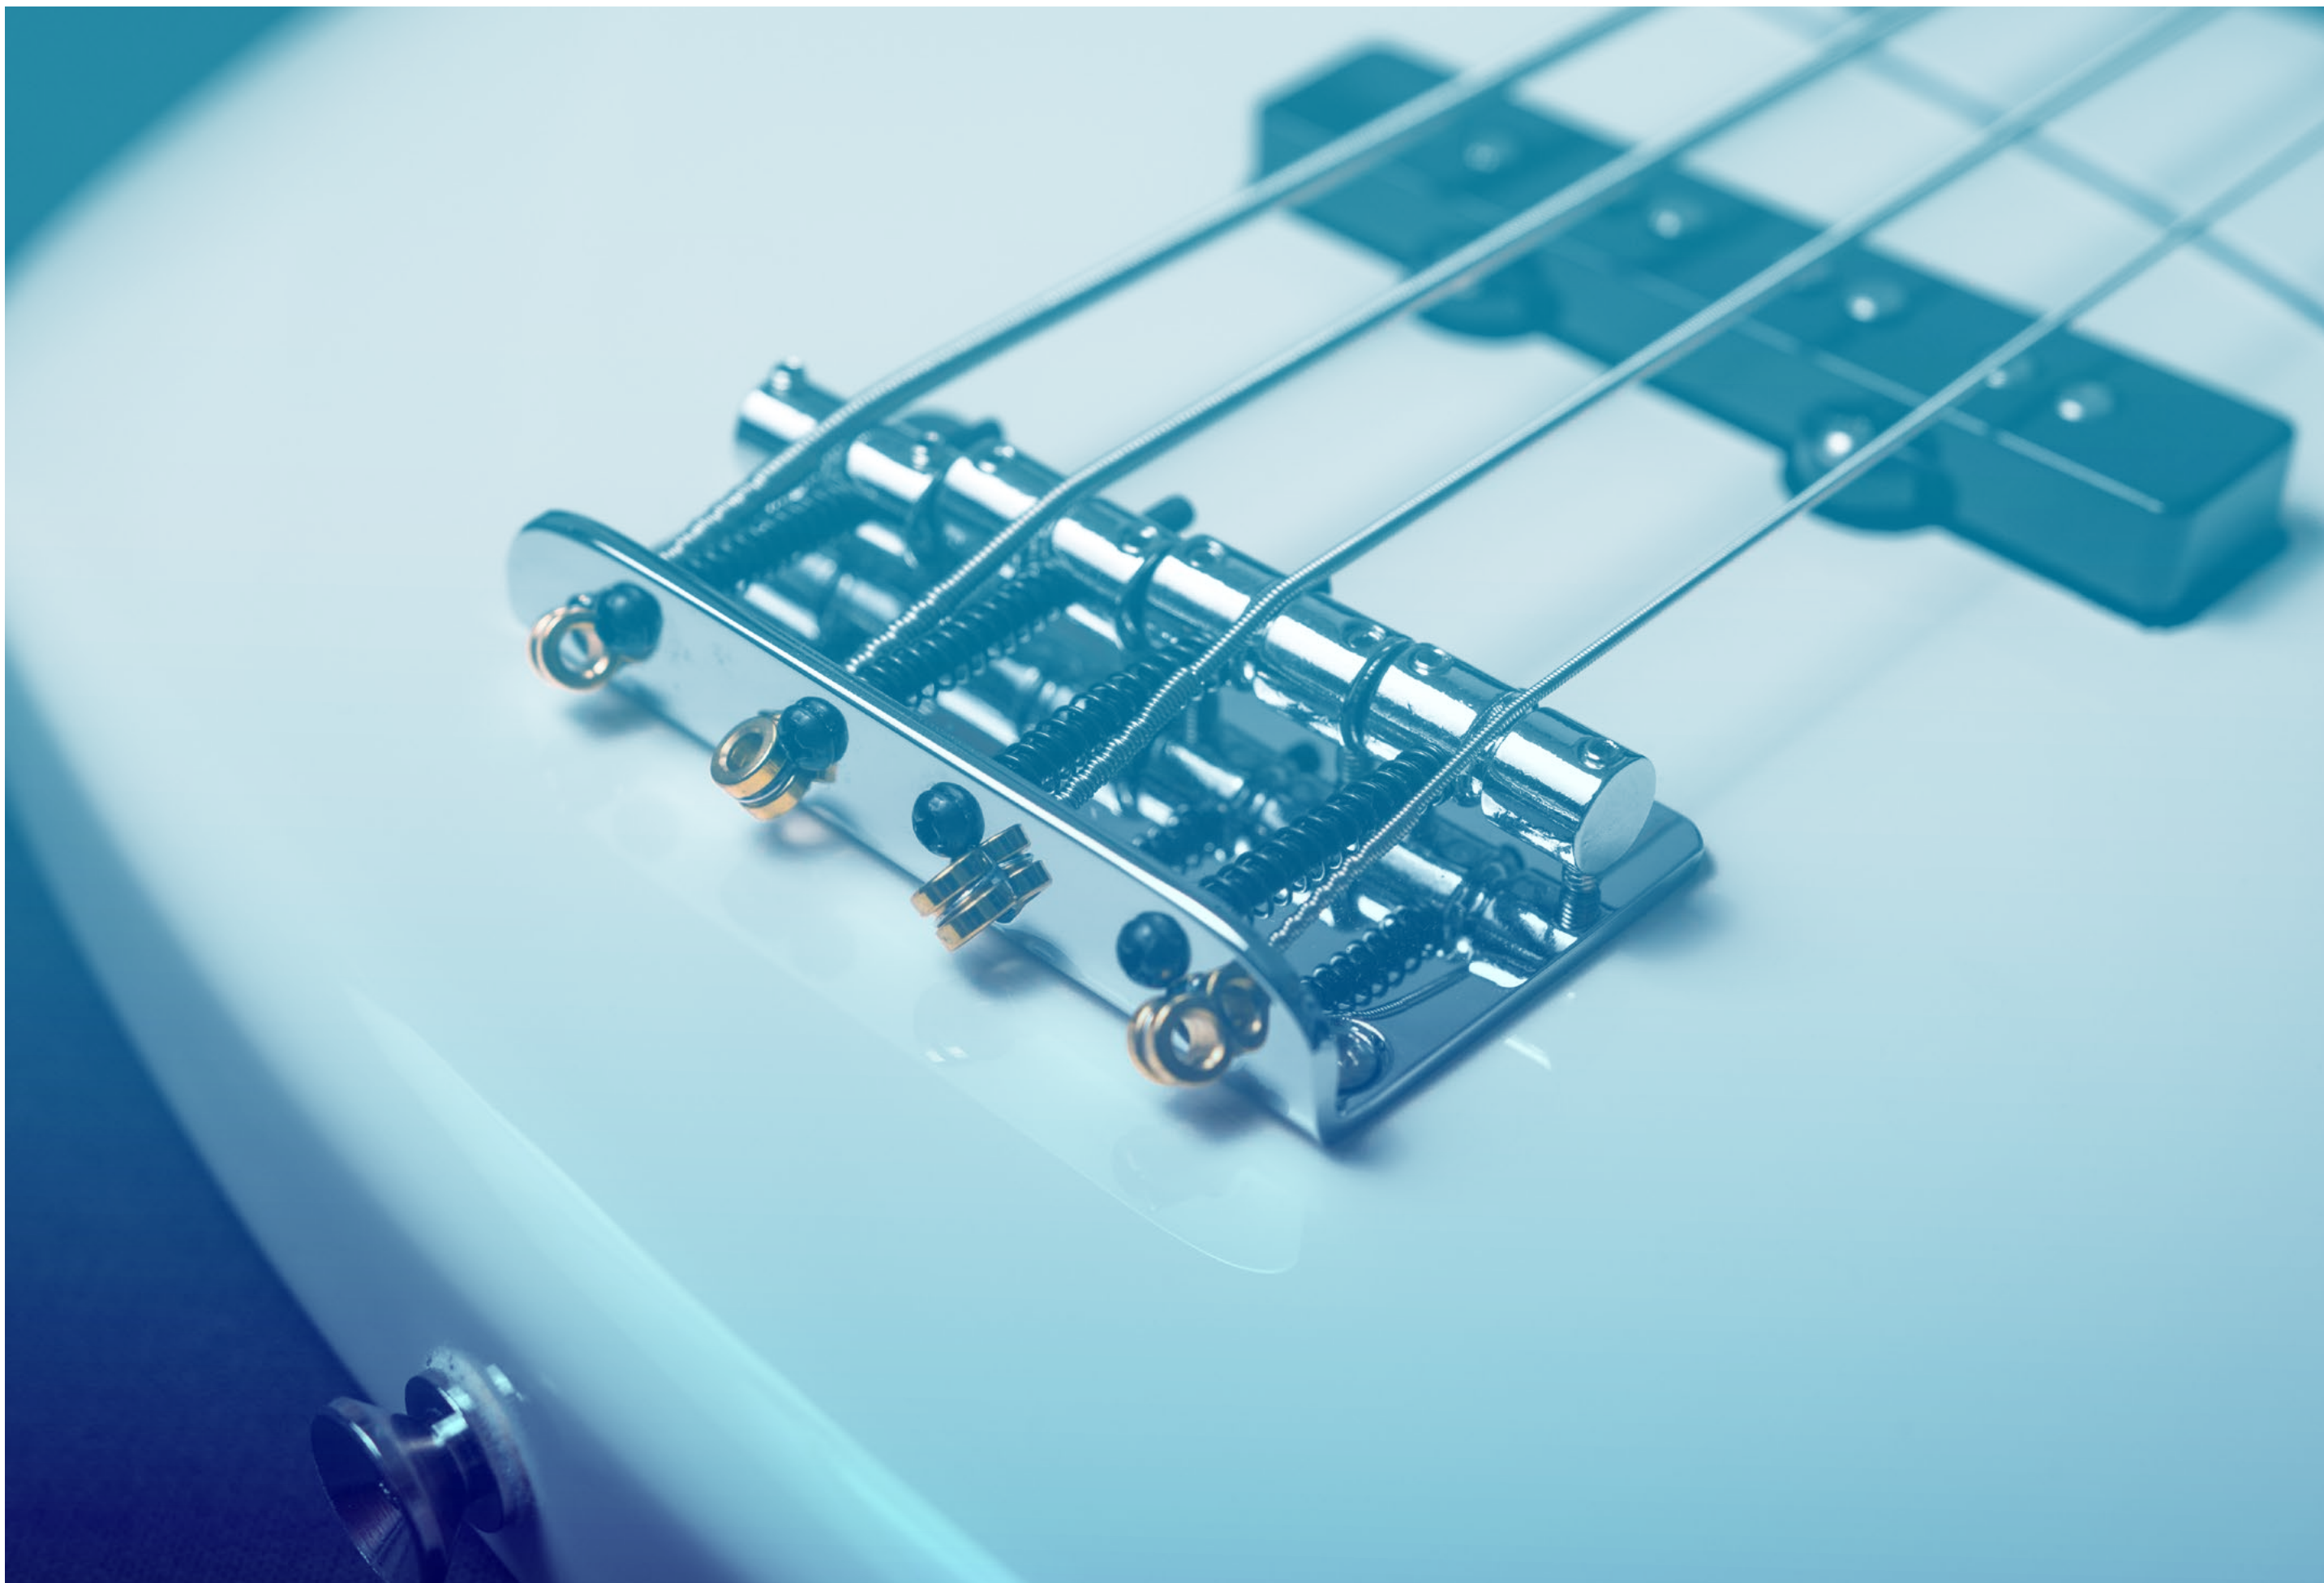

4.1/ Advertising

SCPP advertisements are taken out in professional guides in the music sector, as well as in magazines that are distributed during the MIDEM.

4.2/ The SCPP's presentation portfolio

The SCPP's presentation portfolio covers the company's main responsibilities and provides details on the types of collections as well as the rules for distribution.
