*Neuilly, 28 March 2025*

Ladies and Gentlemen, Associates,

It is my pleasure to present you with the activity report of the SCPP within the transparency report for the period opened 1 January and ended 31 December 2024.

I would like to remind you briefly of the SCPP's major responsibilities:

- Collection and distribution of fees pertaining to:
  - music videos,
  - private audio and audiovisual copying,
  - equitable remuneration,
  - certain uses of commercial sound recordings (excluding equitable remuneration).
- Grants
- Combating piracy
- Defending and developing the rights of sound recording producers.

## ACTIVITY REPORT 2024

01

## 1/ COLLECTIONS

### 1.1/ Music videos

- Collections of fees for the distribution of your music videos stood at 7,458,000 euros in 2024 compared to 8,299,000 euros in 2023, which is a fall of 10%. This drop is mainly due to the drop in collections from the M6 group.

### 1.2/ Private Audio Copying

- Please note that COPIE FRANCE is responsible for collecting this fee. Fifty percent goes to the authors, twenty-five percent to performers and twenty-five percent to the producers.
- The total amount collected in remuneration for Private Audio Copying by COPIE FRANCE for 2024 represented 134 million euros, up 12.5% from the amount collected in 2023 (119 million euros), with very weak collections at the start of 2023 since some payments were made in 2022 that were normally due in 2023. Without this effect, collections from private audio copying in 2024 would only have increased slightly by 1.1% compared to 2023.

### 1.3/ Private Audiovisual Copying

- A substantial portion of the collection of this remuneration (copying distributed music videos, copying static images extracted from music videos) is performed by COPIE FRANCE, and the remuneration is distributed by PROCIREP, representing audiovisual producers. The SCPP also collects from SORIMAGE a share of the remuneration for private copying for copying disc liners and DVD and Blu-Ray jackets.
- COPIE FRANCE's total revenue for private audiovisual copying for 2024 amounted to 74 million euros, an increase of 11% compared to 2023 (66 million euros), mainly corresponding to the effect of the 2022 adjustments mentioned for private audio copying.
- The remuneration actually collected by the SCPP in 2024 for remuneration for private audiovisual copying of music videos for 2023 stood at 361,000 euros, compared to 153,000 euros for 2022, which was an unusually small amount.

### 1.4/ Equitable remuneration – Collections SPRE (COLLECTING SOCIETY FOR EQUITABLE REMUNERATION)

- Fees due by radio stations, television stations, clubs and public performances are collected by the SPRE, a joint venture company for producers and performers.
- The collection of fees from most public performances is handled by the SACEM on behalf of the SPRE, as the latter collects directly from clubs and musical theme bars.
- Total equitable remuneration received by SPRE (Collecting Society for Equitable Remuneration) stood at 161 million euros in 2024, compared to 153 million euros in 2023, an increase of nearly 5%, mainly due to an improvement in the efficiency of collections in the public performance sector, including clubs and musical theme bars.

#### 1.4.1 Radio sector

- Collections across the entire radio sector amounted to 35 million euros in 2024, up 7% compared to 2023 (32 million euros), due to an increase in the rates of use of sound recordings by private radios and an adjustment not made before the end of 2024 for a public radio station.

#### 1.4.2 Television sector

- Collections reached 4.7 million euros in 2024, a non-significant drop compared to 2023 (5.3 million euros), due to the collection of remuneration from a large private chain in 2023 that was due at the end of 2022.

#### 1.4.3 Club/dance bar/musical theme bar sector

- Collections in the club sector stood at 26.9 million euros in 2024 compared to 25.8 million euros in 2023, an increase of 4%, due to the very good results of SPRE's litigation policy in this sector, which enabled recurring collections to be obtained from major institutions that disputed having to pay equitable remuneration.

#### 1.4.4 Public performance sector – SACEM collections

- Collections for 2024 amounted to 95 million euros compared to 89 million euros for 2023, accounting for a 6% increase due to the recovery in collections for occasional sessions and exceptional collections due to the Olympic Games sound systems.

### 1.5 / Sound recordings (excluding Equitable Remuneration)

- Since mid-1997, the SCPP has been intervening on behalf of its associates, as part of general contracts of common interest, in a certain number of sectors relating, not to Equitable Remuneration, but to the right to authorise producers of sound recordings to: use sound recording excerpts via on-line services, reproduction rights for sound system operators, audiotel, interactive terminals, telephone music-on-hold, and the share of the use of sound recordings by television stations that is not subject to Equitable Remuneration and for which the SCPP has been mandated. The amount collected for 2024 in the Sound Recording sector (excluding Equitable Remuneration) stands at 7.4 million euros, which represents an amount equivalent to that of 2023 (7.2 million euros).

## 2/ DISTRIBUTING

- Nearly 71 million euros (gross amounts) were distributed in 2024, representing a small increase of almost 4% over 2023 (68 million euros).
- This amount does not include the amounts set aside in the reserves, due to a risk of litigation as to the eligibility of sound recordings made outside the European Union for the distribution of remuneration for private copying, in particular due to Brexit, of a share of 30% of the budget available for the provisional distribution for the 2023 rights year (instead of the 10% previously retained) and the maintenance of the 20% reserve of the amount available for the second provisional distribution of the rights year 2021 (instead of a final distribution without reserves) as well as the maintenance of the 30% reserve of the amount available for the second provisional distribution of the rights year 2022 (instead of a final distribution without reserves).
- The 2024 distributions were supplemented by a cash advance for a gross amount of 42.0 million euros, reduced to a net amount of 34.7 million euros after taking into account the advances and downpayments paid previously and not recovered (a cash advance of 44 million euros corresponding to a net amount of 35.8 million euros had been paid at the end of 2023). The structural advance was increased from a gross amount of 7.5 million euros to a gross amount of 8.5 million euros corresponding to a net amount paid of 6.1 million euros.
- Finally, exceptional advances, reimbursable at first demand, were paid to the three major international companies from the future distribution of ex-non-distributable equitable remuneration, pending a national court decision taking into account the CJEU decision of 8 September 2020 (10.5 million euros), as well as on the supplement to the provisional distribution of private copying remuneration for the rights years 2021 (20%), 2022 and 2023 (30%) (2 million euros).
- A detailed report of the distributions is provided in the 2024 financial report.

## 3/GRANTS

- A report on these grants is enclosed with this document under the title "Grants approved by the SCPP in 2024" – Appendix 4. This report includes the breakdown of grants per project.
- In accordance with the decision of the Court of Justice of the European Union of 8 September 2020 in the Recorded Artists Actors Performers LTD vs PPI proceedings, the SCPP did not allocate any sums from the previously legally non-distributable equitable remuneration sums to the grants.
- Indeed, this decision is considered to put an end to the legally "non-distributable" amounts of the Equitable Remuneration referred to in Articles L.214-2, L.324-7, R.321-6 and R.321-7 of the Intellectual Property Code.
- Until the decision of 8 September 2020, these sums were the sums collected for sound recordings published for commercial purposes:
  - not recorded in a European Union country or an EFTA country,
  - not recorded in a country that has ratified the Rome Convention by a national of one of these countries, subject to material reciprocity,
  - and for which the first publication was under 71 years ago.
- This analysis was shared by the SCPP and the SPPF, as well as the departments of the Ministry of Culture.
- This ruling has changed the situation as regards equitable remuneration in Europe and in France, and the SCPP can no longer use amounts that were previously legally deemed as non-distributable amounts of the equitable remuneration for grants.

- The sharp reduction in the SCPP's grant budgets caused by this decision combined with a constant and regular increase in the number of SCPP members led the Board of Directors to make the SCPP's grants more selective, in order to avoid a superficial sprinkling effect of the grants. Two resolutions were adopted to this end at the General Shareholders' Meeting of 28 June 2023. They took full effect on 1 January 2024. They prevented the SCPP's grants from being too widely spread which would have made them ineffective.

## 4/ GRANTS IN THE EVENT OF NON-COMPLIANCE OF DISTRIBUTORS AND SPECIAL FINANCIAL AID

- For several years now, the SCPP has had an aid scheme in place for its associates who are victims of the financial default of their distributor. This aid takes the form of either payments of advances on future distributed rights, or temporary or permanent grant payments.
- These are decided by the Board of Directors of the SCPP. The grants are financed by the remaining balance of non-distributable amounts of Article L.324-17 of the Intellectual Property Code unallocated by law.
- In 2024, la SCPP did not have to pay grants to its associates due to the default of their distributor.

## 5/ FIGHT AGAINST PIRACY

- Details on the SCPP's actions in terms of combating piracy are provided in the activity report of the Anti-piracy Unit in Appendix 5.
- The SCPP's actions in 2024 mainly concern the fight against piracy on the Internet. The SCPP continued to send ARCOM on a daily basis the findings of infringements on the P2P networks established by its sworn agents (with a decreasing volume, which demonstrates the impact of these actions and the proceedings resulting therefrom) and continued to have the illegal links relating to sound recordings in its catalogue to "Direct Download" sites and "Torrents" sites deactivated. Moreover, this year, the SCPP initiated numerous legal proceedings with a view to blocking new illicit sites, including illicit stream ripping converter sites, all of which correspond to hundreds of domain names.

## 6/ COMMUNICATIONS AND INSTITUTIONAL RELATIONS

### 6.1/ Communication

Appendix 6 contains a report on our communications efforts in 2024.

### 6.2/ Institutional relations

- Recall that since the end of 1996, the SCPP has been in charge of a lobbying mission at both local and international level.
- This mission is performed in partnership with the SNEP. It exclusively involves the development and protection of the rights of producers of sound recordings and music videos.
- The SCPP participated in the activity of the Centre National de la Musique (CNM), having a seat on its Board of Directors and several representatives on its professional board.
- The SCPP took part in the ARCOM hearings (including the CSA and the HADOP) on the new missions entrusted by the law to the organisation with regard to the fight against illegal content.
- In addition, the SCPP continued its participation in the works of the ISO MPEG committee on the protection of artistic and literary property in the context of the new MPEG standards and the implementation of international standards on data exchange formats for the musical industry (in the context of the international organisation, DDEX, Digital Data Exchange), particularly for collective management societies for related rights, and thereby to reduce the cost and lead times involved in processing rights for which the SCPP is mandated. Very large volumes of data are now being exchanged in DDEX formats with other collective management societies for related rights.
- The SCPP also made major contributions to the work of the various IFPI work groups in charge of proposing measures that make it possible to simplify the international management of rights managed collectively by the producers of sound recordings, to make it more efficient, more transparent and less costly.

- Finally, it supported the two CNM funding proposals that were beneficial to all its members and did not weaken online digital music distribution platforms. It is regrettable that the public authorities have chosen the worst of the proposals (the streaming tax), which does not provide any new financing to the sector and which weakens the platforms, whereas the subscription rate for these platforms in France is far below that in comparable countries.

## 7/ PARTNERSHIP WITH ADAMI

The SCPP was contacted by ADAMI at the beginning of 2023 to discuss the idea of a partnership between ADAMI and the SCPP, which could take the form of an alliance between the two bodies.

The SCPP has expressed its interest in having one organisation bringing together artists and producers, as is the case in many other European countries.

Both the SCPP et ADAMI jointly acknowledged that the situation in France creates inefficiencies that are detrimental to all rights holders and weakens their ability to negotiate their rights. This is because there are 7 collective management societies for related rights in France, whereas in most European countries there is only one. Performers and producers are creative partners, who may have opposing interests, but who clearly have common interests to defend, and who have demonstrated, both in France through SPRE and COPIE FRANCE and abroad through their joint organizations, that they are perfectly capable of working in harmony and intelligently for the common benefit of their respective rights holders.

During the discussions, ADAMI indicated that it had begun a process of modifying its distribution rules, resulting in the elimination of most of their redistributive effects. The new rules envisaged are therefore closer to those of the SCPP and make it possible to envisage common rules for documentation and distribution of recordings that both bodies manage for the benefit of their respective rights holders.

The existence of these common rules shall not prevent the implementation of differentiated deductions between artist distributions and producer distributions, within the framework of the provisions of paragraph 2 of Article L-324-10 of the IPC, and as referred to in 10c) of Article R-321-14 of the IPC.

After studying the organisation and governance of other joint societies of artists and sound recording producers and in particular the companies PPL (UK), GVL (Germany), SENA (Netherlands) and GRAMEX (Finland), the Managing Directors of the Parties have drawn up a Partnership Framework Agreement supplemented by a Partnership Charter.

A joint meeting of the two Boards of Directors took place on 23 January 2024, in which fruitful discussions about this project took place, followed by discussions that enabled the Framework Agreement and the Charter to be finalised.

The final versions of these documents were approved by the Board of Directors of the SCPP on 13 March 2024 and by the Board of Directors of ADAMI on 2 April 2024.

The reconciliation process provides for a first phase, consisting of the creation of a joint subsidiary, responsible for pooling the databases of the two companies and their remuneration rights distribution tools, namely remuneration for private copying and Equitable Remuneration.

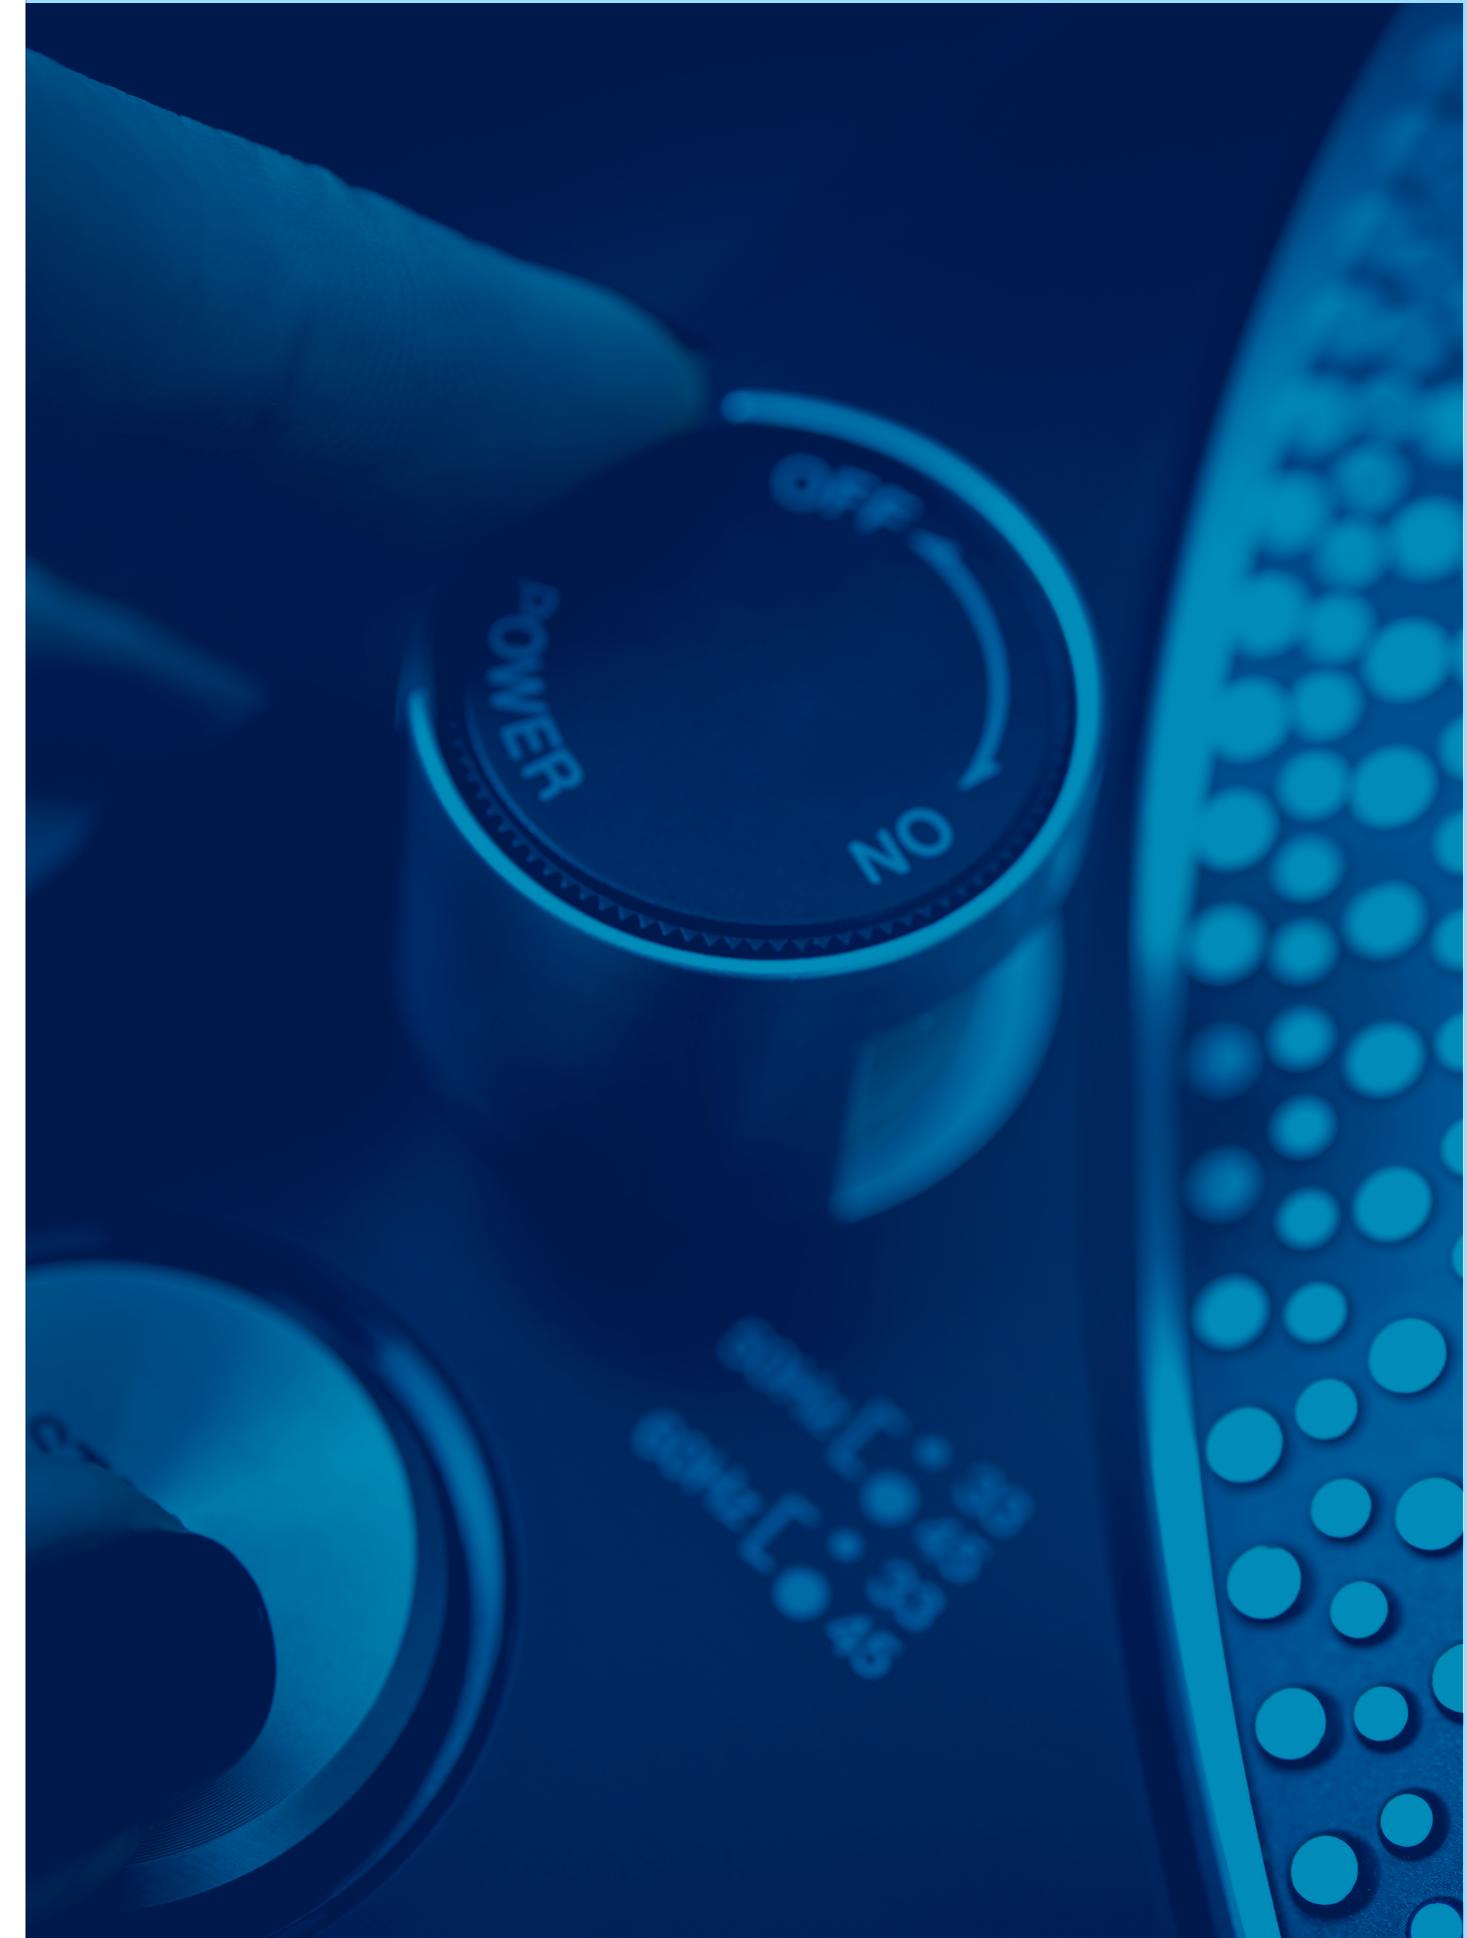

If both parties are satisfied with the outcome of the first phase, they may decide to continue to come closer together in a second phase, consisting of the merger of ADAMI and the SCPP within their joint subsidiary. The decision to move to this second phase will be submitted for approval, at the appropriate time, to the general meetings of each of the companies. If they consider that a merger would not be possible, they may either continue the joint subsidiary's activity unchanged or terminate it, each party retaining the benefit of the tools and bases developed jointly.

It is specified that in both phases, the by-laws and the general regulations of the joint subsidiary will ensure perfect parity in terms of decision-making power within the company's bodies. Costs relating to actions of common interest will be shared, costs relating only to the artistic college or the producer college will only be borne by the college concerned.

During phase 1, both companies will remain fully independent. The joint subsidiary will not have any staff or premises. The joint subsidiary will take the form of a civil society with only two associates, ADAMI and the SCPP.

Since the creation of a subsidiary requires the approval of the SCPP's General Shareholders' Meeting, this was approved by the SCPP's General Shareholders' Meeting on 26 June 2024.

During the second half of 2024, ADAMI and the SCPP drafted the specifications for a study designed to help them implement the first phase of their partnership, i.e. the pooling of their databases and distribution tools for the two legal licences, namely remuneration for private copying and equitable remuneration for commercial sound recordings. A call for proposals was launched at the end of 2024 with major IT consultancy firms.

## 8/ CURRENT PERIOD

### 8.1/ Institutional relations

- The SCPP also sat on the boards of directors and professional boards of the CNM. It refused to adopt the initial CNM intervention budget for 2025, which provided for a budget for sound recording production almost identical to the 2023 budget, while the same budget provided for new financing of the CNM by the streaming tax amounting to 15 million euros. It will continue to intervene so that this anomaly is rectified as best as possible within the framework of a revised budget.
- It participated very actively in the Private Copying Commission, which had usage studies carried out on phones, tablets and computers (new or refurbished). The results were obtained between December 2024 and January 2025. They should enable new remuneration scales to be adopted for 2026.
- It also participated very actively in the work of the Equitable Remuneration Commission in a specialised training course for Private Radio operators. This Commission has met monthly since September 2024, and representatives of rights-holders should be able to present their proposals for reassessing private radio tariffs before the summer of 2025.

### 8.2/ Combating piracy

- The SCPP continued to report the offences detected on P2P networks to ARCOM and to arrange for the deactivation of links to "Direct Download" sites concerning sound recordings in its national catalogue. ARCOM also sent a large number of offender case files to the prosecutors' offices. In addition, the SCPP requested the blocking of new sites that are obviously engaging in piracy and launched further actions against obviously illegal "stream ripping" converters.

### 8.3/ SCPP/SPPF Litigation

- The SPPF served a writ of summons to the SCPP to appear before Nanterre High Court with a view to obtaining the cancellation of the SCPA's resolution of 14 December 2018 calling for, as from rights year 2018, the sharing of distributable and non-distributable amounts of the equitable remuneration under the rules of common law, then filed a motion for a summary hearing to appear before the same Nanterre High Court with a view to obtaining the blocking of all of the non-distributable amounts of the equitable remuneration. By an order of 16 May 2019, the judge in chambers of the Nanterre High Court ordered the SCPA, as proposed by the SCPP, to block 6.44% of the total amount of the equitable remuneration received by the SPRE and stated that, for the remainder of the equitable remuneration, the distribution rules adopted by the General Shareholders' Meeting on 14 December 2018 would remain applicable. The SPPF has appealed against this decision. On 5 March 2020, the Court of Appeal of Versailles partially overturned the order of the Nanterre High Court by terminating the blocking order and by suspending the provisions of the decision of the General Shareholders' Meeting on 14 December 2018 relating to amendments made to the calculation of cash advances for 2019 and 2020. Finally, the SCPP and the SPPF jointly agreed to participate in mediation by agreement beginning on 23 December 2019.
- The mediator, Mr. Raphaël Hadas-Lebel, Honorary Chairperson of Section of the State Council, presented his report on 7 September 2020. The latter proposed a solution capable of being accepted by both companies, but which became invalid the following day with the ruling of the Court of Justice of the European Union, which rendered the action devoid of purpose, namely the sharing of amounts of the equitable remuneration that were previously legally deemed as non-distributable. Despite the action becoming devoid of purpose, the SPPF refused to withdraw its summons or reimburse the amounts wrongfully collected as part of the ruling of the Court of Appeals of Paris on 5 March 2020, with respect to cash advances for 2019 and 2020. The SCPP has requested the reimbursement of these amounts (around €11,000,000) within the framework of the proceedings initiated by the SPPF.
- However, the SPPF accepted that the amounts in dispute relating to these advances, for which payment was due after 8 September 2020, would be blocked by the SCPA. In addition, cash advances from the year 2021 onwards are now calculated according to the SCPA decision dated 18 December 2018. The part of these advances that is currently in dispute with the SPPF which was collected by the SCPP, has not been taken into account in the amount collected for 2024 (a total of 3.7 million euros). The aggregate amounts of equitable remuneration received and not taken into account in the amount of collections amounted to €15.1 million at the end of December 2024.
- The first instance ruling on this dispute is now expected by the end of 2025.

### 8.4/ Partnership with Adami

- ADAMI and the SCPP accepted the proposal from CAP GEMINI for a study designed to help them implement the first phase of their partnership, i.e. the pooling of their databases and distribution tools for the two legal licences, namely remuneration for private copying and equitable remuneration for commercial sound recordings. The results of the CAP GEMINI study are expected at the beginning of the summer 2025.

## CONCLUSION

In 2024, the SCPP managed to increase its collections by 3.2% compared to 2023, despite the stagnation in private copying remuneration and thanks to a significant increase in the amount of equitable remuneration collected

This level of collections is expected to be globally similar in 2025.

We had to continue to place private copying remuneration collected into a reserve account, given the formal notice received from the British company PPL to end the ineligibility for the distribution of private copying remuneration for sound recordings made in the United Kingdom since the 2021 rights year, in line with the analysis of the consequences of Brexit carried out by the Ministry of Culture, but contrary to the case law of the European Court of Justice (KWANTUM ruling).

Furthermore, we hope that the work of the Private Copying Commission and the Equitable Remuneration Commission will be fruitful and enable a return to growth in collections in 2026.

Finally, we will do our best to ensure that the partnership with ADAMI is effectively implemented, to the mutual satisfaction of the associates of both companies.

### SCPP Collections

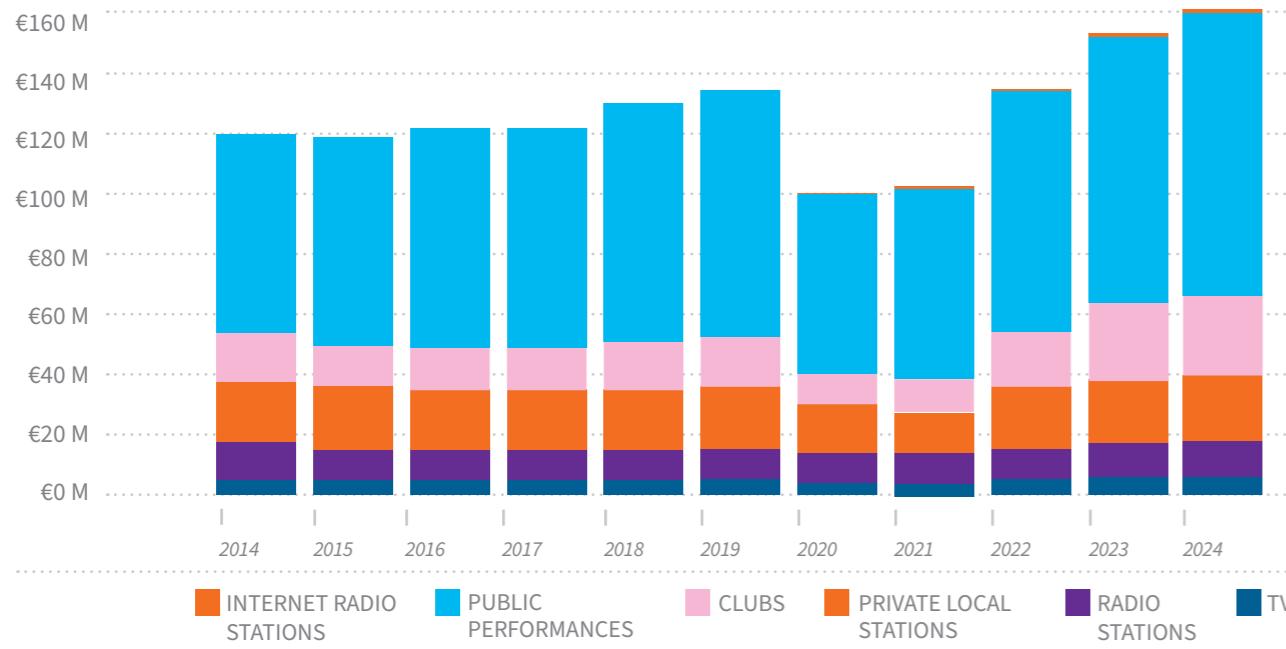

## Equitable Remuneration

- In 2024, the SCPP recognized in its accounts 72.4% of the Equitable Remuneration paid by the SPRE to the SCPA during the year (71.9% in 2023, 71.0% in 2022). It should be noted that collections were actually made at a rate of 77.9%, corresponding to an additional amount of 3.7 million euros, but this amount was offset in the books and placed in reserves due to the dispute with the SPPF.
- Equitable remuneration collections include a provision of €800K recognized following the result of the audit carried out by EY for the SCPA. This audit revealed anomalies in the significant sales of 2 SPPF producers. Before being able to make the adjustment, the SCPP provisioned part of it.
- The SPRE received a record amount of €161.2 M in Equitable Remuneration in 2024, i.e. a 5.3% increase over 2023 (€153.1 M). This performance comes mainly from public performance collections.

## SPRE Collection

The SCPP also collected €50.3 K in remuneration from foreign collective management societies (€48.5 K in 2023), to be distributed to SCPP members.

## Private Audio Copying

The SCPP and the SPPF provisionally shared CPS (private audio copying) in 2024 based on a cash rate of 63.8% for the SCPP (compared to 66.8% in 2023) and 36.2% for the SPPF.

Collections fell by 1.2% compared to 2023 to €18.1 M, due to an initial adjustment in favour of the SPPF greater than that of 2023 (€4.5 M compared to €3.7 M) and a drop in collections excluding adjustments of more than 3.5%. These amounts include a provision of €1.3 M recognised following the result of the audit mentioned above.

## Private Audiovisual Copying

≥ Private Audiovisual Copying comes from three sources: the copying of distributed music videos, the copying of static images extracted from music videos (frames) and the copying of DVD booklets and sleeves.

Remuneration for the private copying of music videos, DVD jackets and booklets and frames are distributed prorata to the distribution of remuneration for broadcasting by television channels (with an audience of over 1% of the market share) of music videos based in France.

Remuneration for private copying of record sleeves is distributed with the CPS (private audio copying) remuneration.

## Music Video broadcasting rights

Collections concerning music video broadcasting rights fell by 10.1% between 2023 and 2024. This drop can be explained first and foremost by the adjustments made in 2023 for France 2 broadcasts over the period 2019-2023. The sharp drop in the number of broadcasts on TF1 explains the rest of the drop.

## Reproduction and public communication rights (excluding compulsory licence) for Sound Recordings

The SCPA received, on behalf of the SPPF and of the SCPP, €2,529 M from users of telephone music-on-hold (€2,645 M in 2023). 83.4% of the net rights collected were paid back to the SCPP in 2024 by the SCPA (81.5% in 2023), i.e. €1.69 M after deducting the cost of managing on-hold calls, as part of the agreement reached between the SPPF and the SCPP in 2002.

For 2024, the SCPP also posted:

- €3.12 M from television stations (€3.41 M in 2023), including €188 K in adjustments in favour of the SCPP (adjustments for the years 2018, 2019 and 2022).
- €1.996 M from sound system operators, internet sites, suppliers of music-on-hold, theatres, etc. (€1.182 M in 2023),
- €585 K from sound system operators on behalf of foreign collective management companies (€766 K in 2023).

In total, the sound recording rights amount to €7.4 million, which is 4% more than in 2023.

## 2/ DISTRIBUTIONS

The amounts distributed in 2024 increased by 4.2% compared to those distributed in 2023 at €70.8 M. (cf. table page 27)

This increase is due to the sharp increase in equitable remuneration collections between 2022 and 2023, distributed between 2023 and 2024 respectively. This increase is mitigated by the drop in Private Copying distributions due to the adjustment of 2022 in favour of the SPPF. These distributions were supplemented by a record distribution of financial income of €3.3M.

## 1/ KEY FIGURES

Since 2010, the costs for collecting and distributing, which are the SCPP's main missions, are distinguished from the costs of the missions that were entrusted to it and which do not concern its SPRD activity. These are grouped together in the "Other Expenses" heading.

The routine expenses of the SCPP increased by 8.5%, with total expenses up by 8.4%.

Salary expenses are up 9%. This increase comes from the incentive bonus, which was half a month in 2023 and one month in 2024, but also from the departure and replacement of the IT director.

The increase in miscellaneous management costs was provided for in the 2024 budget and can be explained first and foremost by one-off IT services but also by the fees relating to support in renegotiating the lease.

The withholding rate for sound recordings which stood at 10.8% in 2023, stands at 11.65% in 2024 subject to approval by the General Shareholders' Meeting.

The withholding on music video broadcasting rights remains at 6%.

In 2024, the amount of withholdings booked was €9.869 M (€8.929 M in 2023) and represents 11.2% of current collections.

The "routine expenses/collections" ratio, which was 10.0% in 2023, was 10.5% in 2024, taking into consideration the Copie France management fees.

## 2/ THE BALANCE SHEET

### Main investments during the 2024 financial year

The SCPP put a number of developments into production in 2024 allowing for, in particular, the improvement of the declaration, identification and distribution tools.

### Receivables, cash and deferred charges

- Accounts receivable (income receivable), which stand at €5.4 M, are comprised of receivables against music video broadcasters and other users (Sound recording rights) and are mostly invoices to be issued for broadcasts in December 2024.
- The other receivables are primarily remunerations that are provisioned each year for known amounts to be invoiced to the SCPA representing Equitable Remuneration settled by the SPRE, the Private Audio Copying paid by COPIE FRANCE and “Telephone music-on-hold” rights, and not yet paid to the SCPP, VAT adjustments for remuneration provisions and current operations and finally cash and structural advances granted to members in December 2024.
- Cash and investment securities stand at €79.1 million (compared to €72.5 million at the end of 2023) inc. €76.6 million for investment securities:

BANKS AND INCOME	AMOUNTS
SOCIETE GENERALE – Term deposit	76,283,605
SOCIETE GENERALE – SG SICAV SGAM MONEPLUS	234,145
SOCIETE GENERALE – SG SICAV SGAM MONEPLUS	67,213
<b>PORTFOLIO TOTAL AT 31/12/2024</b>	<b>76,584,963</b>

- Cash on SCPP's current accounts stood at €2,552,269.

### Company's shareholder equity

End-2024, the SCPP had 4,738 associates (vs. 4,416 end-2023, 4,063 end- 2022). The balance carried forward represented €85,360 at end-2024, after allocating the P&L.

### Main debt

Trade payables and related accounts, which stand at €551 K, are primarily comprised of invoices for fees and the provision of services in the last few months of the year.

Tax and social security debt stands at €22.4 M and are mostly comprised of VAT on rights received and to be received.

“Other debt” (accrued expenses) i.e. €291 M primarily includes:

- rights to be paid to rights holders for which the SCPP did not yet receive the invoices at 31 December 2024,
- undistributed fees collected in 2024 and a small portion prior to that, and which will mainly be distributed in 2025,
- the balance of “non-distributable” amounts pending allocation and adjustments with the SPPF.

Expenses for the 2024 period are 2.5% above budget.

This difference is only due to the accounting entry of €440K enabling a provision to be set aside for the risk on statutory fees relating to equitable remuneration collections in dispute with the SPPF. This risk had been budgeted as income on the ER statutory fee retention line.

#### a - Withholdings

- The "Sound recording" withholding rate, which was 10.8% in 2023, increased to 11.65%. The withholding rate on "music video" rights and Private Audiovisual Copying remains set at 6%.
- The average withholding rate of the SCPP was 11.2% in 2024.
- With reference to the amount of the withholdings taken by the societies collecting remuneration for rights partially on behalf of the SCPP, the table on the following page shows the total withholding rate, i.e. successive debits by the different societies, accepted by SCPP members, representing 15.86% (compared to 15.19% in 2023 and 14.47% in 2022) if the costs of the additional missions carried out by the SCPP are taken into account and 13.52% (compared to 12.94% in 2023 and 12.52% in 2022) if this is limited to the costs of the SCPP as SPRD (see the table in the appendix).

#### b - Access to the "Sound recording" base

The contribution of the ADAMI to the cost of the SCPP's producer database stands at €179 K, an amount based on the 2023 actual invoiced in 2024.

#### c - Extraordinary income and other income

This income is comprised of compensation obtained from "Piracy" litigation.

#### d - Expense transfers and provision reversals

External costs for combating piracy and legal consulting for defending the profession covered by the grant budget (€354 K) and revenue issued from the Top (€238 K) represent almost all of this account.

### 4/ CONCLUSION

The excellent performance of equitable remuneration collections made it possible to largely offset the fall in Private Audio Copying collections, again penalised by a significant adjustment in favour of the SPPF. Distributions are also up and financial income paid to rights holders reaches a record level.

The table shows, for each type of remuneration collected by the SCPP, the withholdings which were applied, by rights year, by intermediate societies prior to collection by the SCPP, and those to be applied, at the time of distribution, also by rights year, by the SCPP. It is specified that the rates are net of the use of financial income, for solely collecting companies (SPRE, COPIE France, SCPA) and are excluding the use of financial income for companies that also perform distribution tasks (PROCREP, SCPP). Financial income for societies which exclusively collect is low, as these societies pay the amounts collected to their associates within a short period of time. The average management rate is that which includes the costs of the SCPPs as a collection and distribution society, the average rate for missions also includes the cost of the missions entrusted to the SCPP by its associates and which are added to the society's costs of collection and distribution (in particular, the combating piracy and the financing of professional tools).

# APPENDICES TO THE FINANCIAL REPORT

The music video distributions are calculated and distributed monthly.

Sound recording distributions are calculated and distributed in July and November of each year.

Advances are offered each year in December.

Payments are made each week, following the receipt of invoices from the producers.

The amount paid is therefore equal to the amount invoiced.

# APPENDICES

## 1/ PRESENTATION OF THE COMPANY

SCPP, created in 1985, has for corporate purpose the collective exercise of the rights of sound recording and music video producers. The collection and distribution of remunerations owed to sound recording producers or their successors individually due to the use of sound recordings or music videos – controls on sound recordings and music videos.

The duration of the fiscal year is 12 months, beginning on 1 January and ending 31 December 2024.

The balance sheet total before distribution for the period ending 31/12/2024 is 316,810,755 euros.

The income statement for the period, presented in the form of a list, generated an accounted loss of 85,310 euros.

The notes and tables hereinafter form an integral part of the annual financial statements.

## 2/ ACCOUNTING RULES AND METHODS

### 2.1. General rules

44 The annual financial statements for the period ending 31 December 2024 were drawn up according to the regulations of France's accounting standards authority no. 2014-03 dated 5 June 2014 concerning the General Chart of Accounts, and in accordance with the provisions of accounting regulations 2000-06 and 2003-07 on liabilities, 2002-10 on asset amortisation and depreciation and 2004-06 on the definition, recognition, and evaluation of assets as well as regulation no. 2017-07 pertaining to the recognition of author's rights.

The general accounting policies were applied in accordance with the General Chart of Accounts and in compliance with the principle of prudence, and according to the following basic assumptions:

- Going concern
- Independence of accounting periods
- Consistency of accounting methods from one period to the next,

and in accordance with the general rules for drawing up and presenting the annual financial statements.

Only significant information is expressed. Unless mentioned otherwise, amounts are expressed in euros.

The basic method used for valuing items recorded in the accounts is the historical cost method.

The main methods used are presented hereinafter.

### 2.2. Method of presenting the management report and the income statement

Operations are resumed and presented using the "Management account" as defined in the provisions of Decree no. 98-1040 of 18 November 1998, appendix 1. This management account, in accordance with the decree of 18 November 1998, is completed with an income statement presented according to the provisions of the general chart of accounts.

### 2.3. Intangible assets

Intangible fixed assets are comprised of:

- software purchased by the company,
- design costs for distribution software and databases, carried out by IT service providers or the SCPP's IT department. Internal costs are booked as fixed assets based on the costs of wages used in creating the developments.

All of these intangible assets are depreciated on a straight-line basis over three years.

### 2.4. Tangible fixed assets

Tangible fixed assets are booked at their purchase cost. Depreciation is calculated over the estimated lifespan of the goods according to the straight-line method as follows:

	Straight-line
Fixtures and fittings	8 years
Office equipment	5 years
IT equipment	3 to 5 years
Furniture	5 years or 8 years
Industrial equipment	5 years

### 2.5. Securities

Equity interests appear on the balance sheet at their historical cost or at their current value if the latter is lower.

### 2.6. Investment securities

Investment securities are booked at their purchase cost and, at the end of the period, an estimation is made of these securities, based on their market value.

Investment securities are comprised of capitalised S.I.C.A.V., mutual funds and negotiable certificates of deposit. In accordance with the company's articles of association, capital gains on these securities supplement the rights of producers of sound recordings.

### 2.7. Provisions for risks

The company recognises provisions for risks according to incurred litigation costs, likely to have an impact on its income and expenses.

### 2.8. Rules and methods concerning rights

#### 2.8.1. Obligation as to grants

The SCPP must statutorily and in virtue of Article L 321-9 of the Intellectual Property Code devote a portion of the collected rights to grants: 25% of the amounts collected for private copying of sound recordings and all of the non-distributable technical amounts generated.

This contribution is booked on the liabilities side of the balance sheet and the various payments made for this purpose are then deducted.

## 2.8.2. Collected and distributed rights

All of the rights collected by the company must be distributed.

The amount of rights collected or to be collected is therefore identical to the amount of rights distributed and to be distributed. Rights to be distributed to producers are booked on the liabilities side of the balance sheet for their total amount including tax or for the total amount excluding taxes relating to rights from private audio copying and private audiovisual copying, and have only one deduction for grants linked with rights from private audio copying and private audiovisual copying.

## 2.8.3. Non-distributable amounts of equitable remuneration

According to Article L321-9 of the Intellectual Property Code, sums collected after 1 August 2000 for equitable remuneration for radio broadcasting and communication in public places of commercial sound recordings, and which are non-distributable in accordance with the Intellectual Property Code and with International Agreements must be fully allocated to grants.

Equitable remuneration received before 1 August 2000 is not concerned by this change in legislation. The allocation of non-distributable amounts that will be observed for these amounts at the time of the next distribution is therefore subject to the rules that were previously defined by lawmakers.

These sums are booked on the liabilities side of the balance sheet.

Non-distributable Equitable Remuneration received after 1 August 2000 that the company has is used for financing its grants, putting on live performances and for artist education.

As a result of the SCPA's decision on 14 December 2018, the way in which equitable remuneration is weighed and distributed between companies is affected as follows.

The amounts of Equitable Remuneration collected for the 2018 rights year and subsequent years are distributed based on real distribution. Each party will be definitively assigned a share of the non-distributable technical amounts posted pursuant to Article L. 214-2 of the French Intellectual Property Code, minus the amount withheld by each company from the share of these non-distributable amounts generated by the sound recordings managed by each company, equal to their share of rights managed, resulting from the weighting performed. The SPPF disputed the validity of this decision before the Nanterre Court.

## 2.8.4. Provision of services: statutory withholdings

Most of the SCPP's operating income is made up of statutory withholdings on rights distributed to members.

The rates for statutory withholdings are set by the general meeting of partners.

Up to 31 December 2000, the statutory withholding was considered as acquired according to the following conditions:

- for rights on video recordings: when the credit notice is issued,
- for other rights: 80% during the period when the rights are collected and 20% during the period when the rights are distributed.

Since 1 January 2001, the statutory withholding is considered as acquired when the credit notice is issued, regardless of the type of right.

Statutory withholdings that are considered as acquired according to this method, but pertaining to rights in the process of distribution and not yet paid to producers, are booked separately on the asset side of the balance sheet, with accrued income.

## 2.8.5. Rights due by the users of telephone music-on-hold

On behalf of the SCPA, the SCPP ensures the administrative management of rights pertaining to Telephone music-on-hold for payment of a management commission of 20% on collected rights. Since 1998, the application of this management commission has a retroactive effect on the share of the collected rights that will be paid to the SPPF.

The amount generated by the management fees collected by the SCPP for collecting rights pertaining to telephone music-on-hold, stands at 505,789 euros at 31 December 2024.

Since 2005, the amounts received during a given period have been considered as sums collected during this same rights year. These rights are booked based on payments received in the current fiscal period, and no longer based on the rights period.

(1) This concerns rights on Telephone music-on-hold, Sound system operators and Suppliers of Telephone music-on-hold, and TV rights.

(2) Total rights are equal to the sum of billing and the provision for the period minus the provision from the previous period (excluding adjustments).

(3) These are the ex-non-distributable amounts collected by the SCPP but blocked until the dispute with the SPPF is settled. This amount represents the difference in calculation between the share of ex-non-distributable amounts at the rate of distributable amounts (old method) and the retention of ex-non-distributable amounts by the companies that generated them (new method).

### 3.1.2. Rights to be distributed

Rights to be distributed are shown in the table on the following page for their entire amount excluding tax, after allocation of the 25% mandatory share for grants for rights stemming from the remuneration of Private Audio Copying and Private Audiovisual Copying, and after deduction of the share of the statutory withholdings already booked as a resource for management of the SCPP. The details by year of collection of the amounts to be distributed are presented in the following tables.

### 3.1.3. Table of rights allocation at 31 December 2024

Details on rights as allocated in 2024, and presented in accordance with the decree of 18 November 1998, are shown in the table below:

financial report

## 4.6. Corporate tax

In 2024, the tax results for the SCPP show a deficit. Consequently, the SCPP has no corporate income tax to pay.

## 4.7. Significant events

- Equitable remuneration: ruling of the Court of Justice of the European Union

The ruling of the Court of Justice of the European Union (CJEU) of 8 September 2020 established the principle according to which member States are not allowed to "exclude from the right to equitable remuneration all performers who are nationals of States outside the EEA".

This decision is the subject of a dispute between the SCPP and the SPPF. In fact, previously, the distribution between SPPF and SCPP was carried out on all of the amounts collected (including non-distributable amounts which represent approximately 6% of the amounts collected) based on the distributable amounts, which gave rise to the following distribution:

	Rights year 2021	Rights year 2022	Rights year 2023	Rights year 2024
SCPP	71.5%	71.0%	71.9%	72.4%
SPPF	28.5%	29.0%	28.1%	27.6%

As they considered that there would be no more "non-distributable amounts" in accordance with the case law, the SCPP claimed a higher distribution %:

	Rights year 2021	Rights year 2022	Rights year 2023	Rights year 2024
SCPP	77.8%	77.4%	78.0%	77.9%
SPPF	22.2%	22.6%	22.0%	22.1%

It was decided that the difference (6.3% for the Rights year 2021, i.e. an amount of 3.2 million euros, 6.4% for the Rights year 2022, i.e. an amount of 3.5 million euros, 6.1% for the Rights year 2023, i.e. an amount of 4.4 million euros and 5.5% for the Rights year 2024, i.e. an amount of 4.0 million euros) would be provisioned to the SCPP and that the corresponding statutory fee would be provisioned for risk (1.7 million euros).

In addition, an audit by our service provider EY, carried out for the SCPA on sales declarations to calculate the distribution of CPS and ER on sales, revealed anomalies on the significant sales of 2 SPPF producers. An adjustment in favour of the SCPP will have to be made.

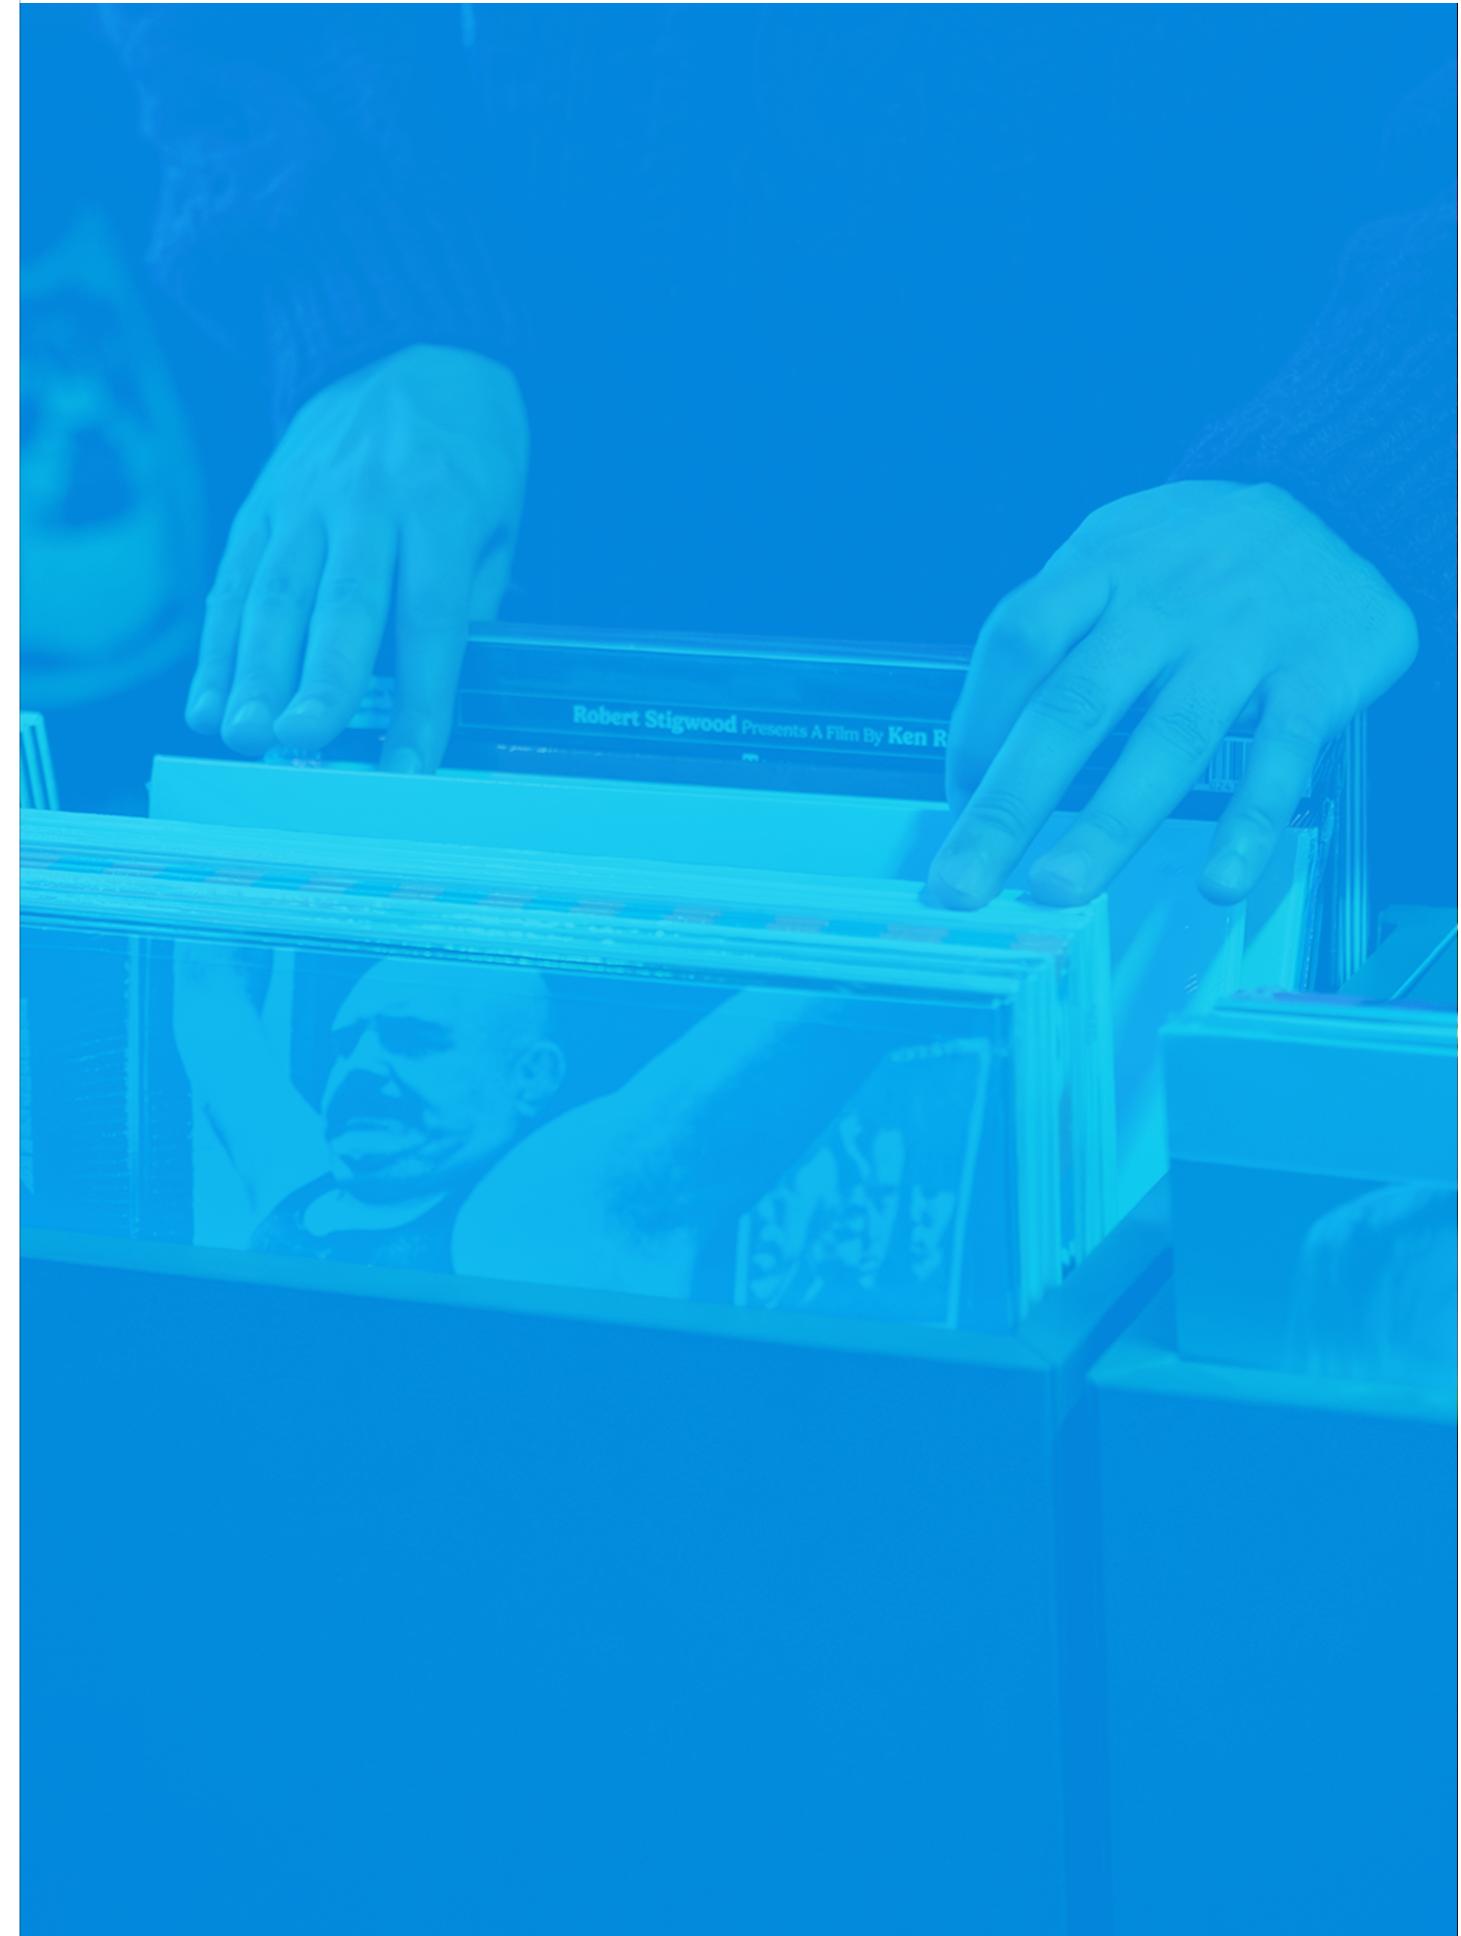

Pending this, the SCPP has provisioned part of the expected adjustment amounting to €1.3 M in additional private copying collections and €0.8 M in Equitable Remuneration collections, i.e. a total of €2.1 M.

miscellaneous information

### 1/ NUMBER OF REFUSALS TO GRANT AN OPERATING LICENSE

The SCPP cannot authorise the licenses for which it has been mandated. In accordance with the provisions of the 3<sup>rd</sup> paragraph of article L.324-7 of the Intellectual Property Code, the SCPP did not refuse to grant any operating license relating to its mandates in effect during financial year 2024.

### 2/ DESCRIPTION OF THE LEGAL STRUCTURE AND OF THE GOVERNANCE OF THE SCPP

La SCPP is a société civile governed by Articles 1832 et seq. of the French Civil Code and by the provisions of Title II of Book III of the French Intellectual Property Code.

The company is administered by a board of directors comprised of associates elected by the General Shareholders' Meeting. The Board of Directors appoints a Managing Director, as Manager of the company.

The Supervisory Board, comprised of associates elected by the General Shareholders' Meeting, carries out the supervisory tasks entrusted to it by law and by our articles of association.

### 3 / LIST OF THE ENTITIES THAT THE SCPP CONTROLS IN TERMS OF ARTICLE L233-16 OF THE FRENCH COMMERCIAL CODE

The SCPP currently controls more than half of the voting rights in the board of directors and the General Shareholders' Meeting of the SCPA, a joint venture company with the SCPP and the SPPF.

The SCPA has capital of €304.90, 50% of which is held by the SCPP. The net result of the SCPA for the 2024 period is a profit of €76,870. The net and gross book value of the securities held is €152.45.

### 4 / TOTAL AMOUNT OF REMUNERATIONS PAID TO PEOPLE MENTIONED IN THE FIRST PARAGRAPH OF ARTICLE L.323.13 OF THE FRENCH INTELLECTUAL PROPERTY CODE

This amount, which corresponds to an individual remuneration, cannot be disclosed. This was subject to a declaration of interests that can be consulted, such as declarations of interests of directors, by the associates of the SCPP as provided for by law and the company's articles of association.

### 5 / USES OF THE DEDUCTED AMOUNTS FOR THE PURPOSES OF SOCIAL, CULTURAL, OR EDUCATIONAL SERVICES

The SCPP does not deduct any amounts for social, cultural, or educational services. However, the SCPP, at the request of its associates, fulfills certain missions that do not relate to rights management which are clearly identified in the financial report (mission expenses). Moreover, the SCPP, as required by law, uses for grants the non-distributable amounts of the remuneration for private copying and the equitable remuneration for commercial sound recordings, as detailed in Appendix 3 of this report.

## 6 / REPORT OF THE PERMANENT AUDITING COMMISSION ON COLLECTIVE MANAGEMENT SOCIETIES

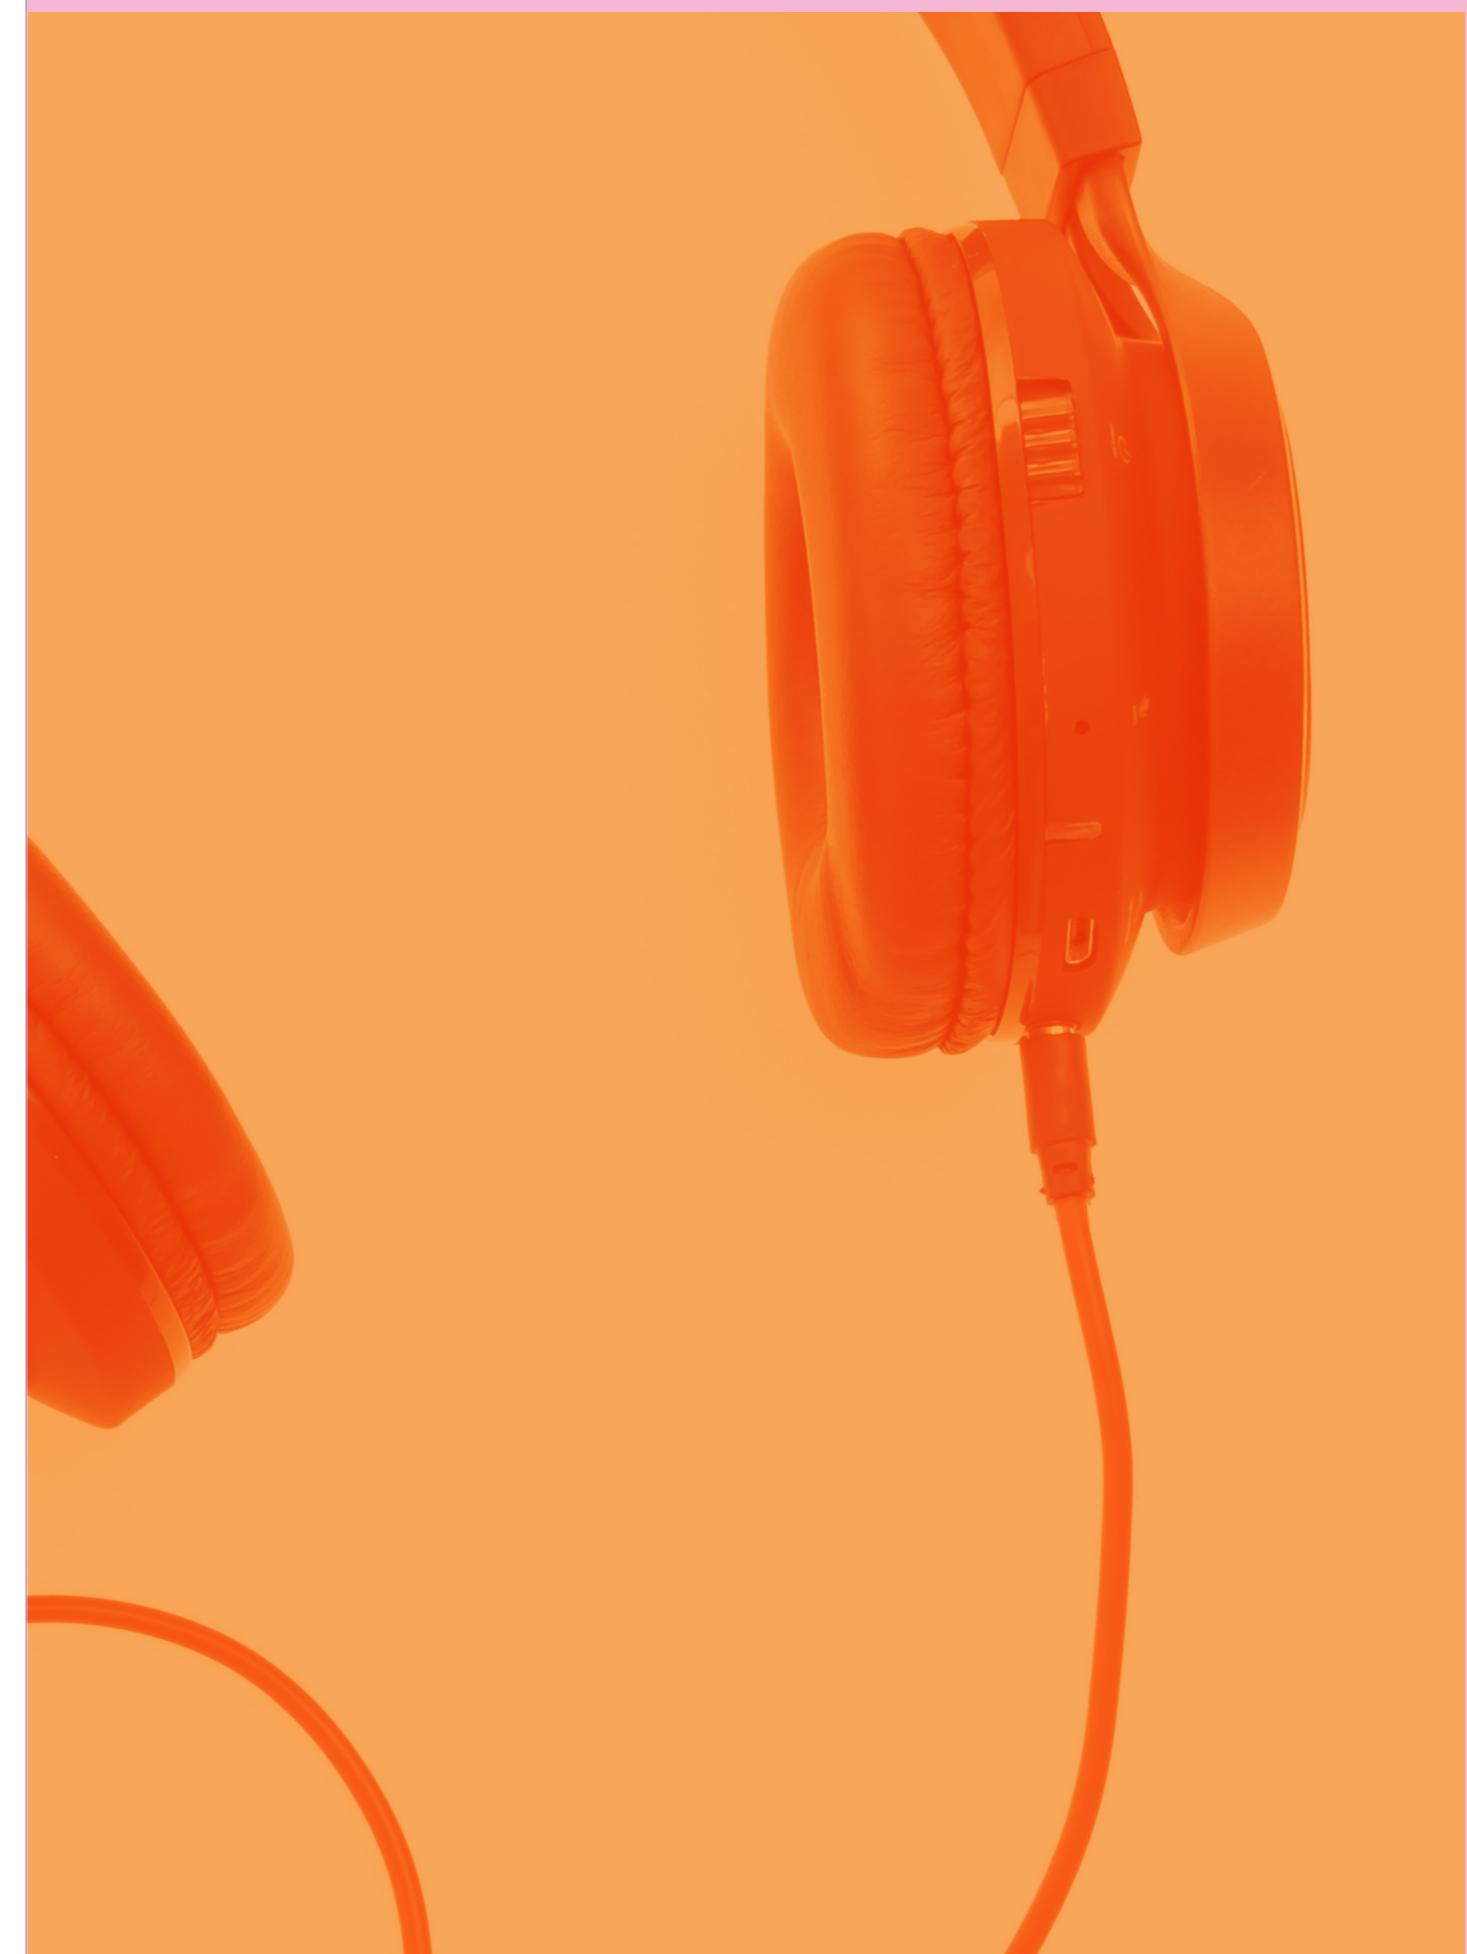

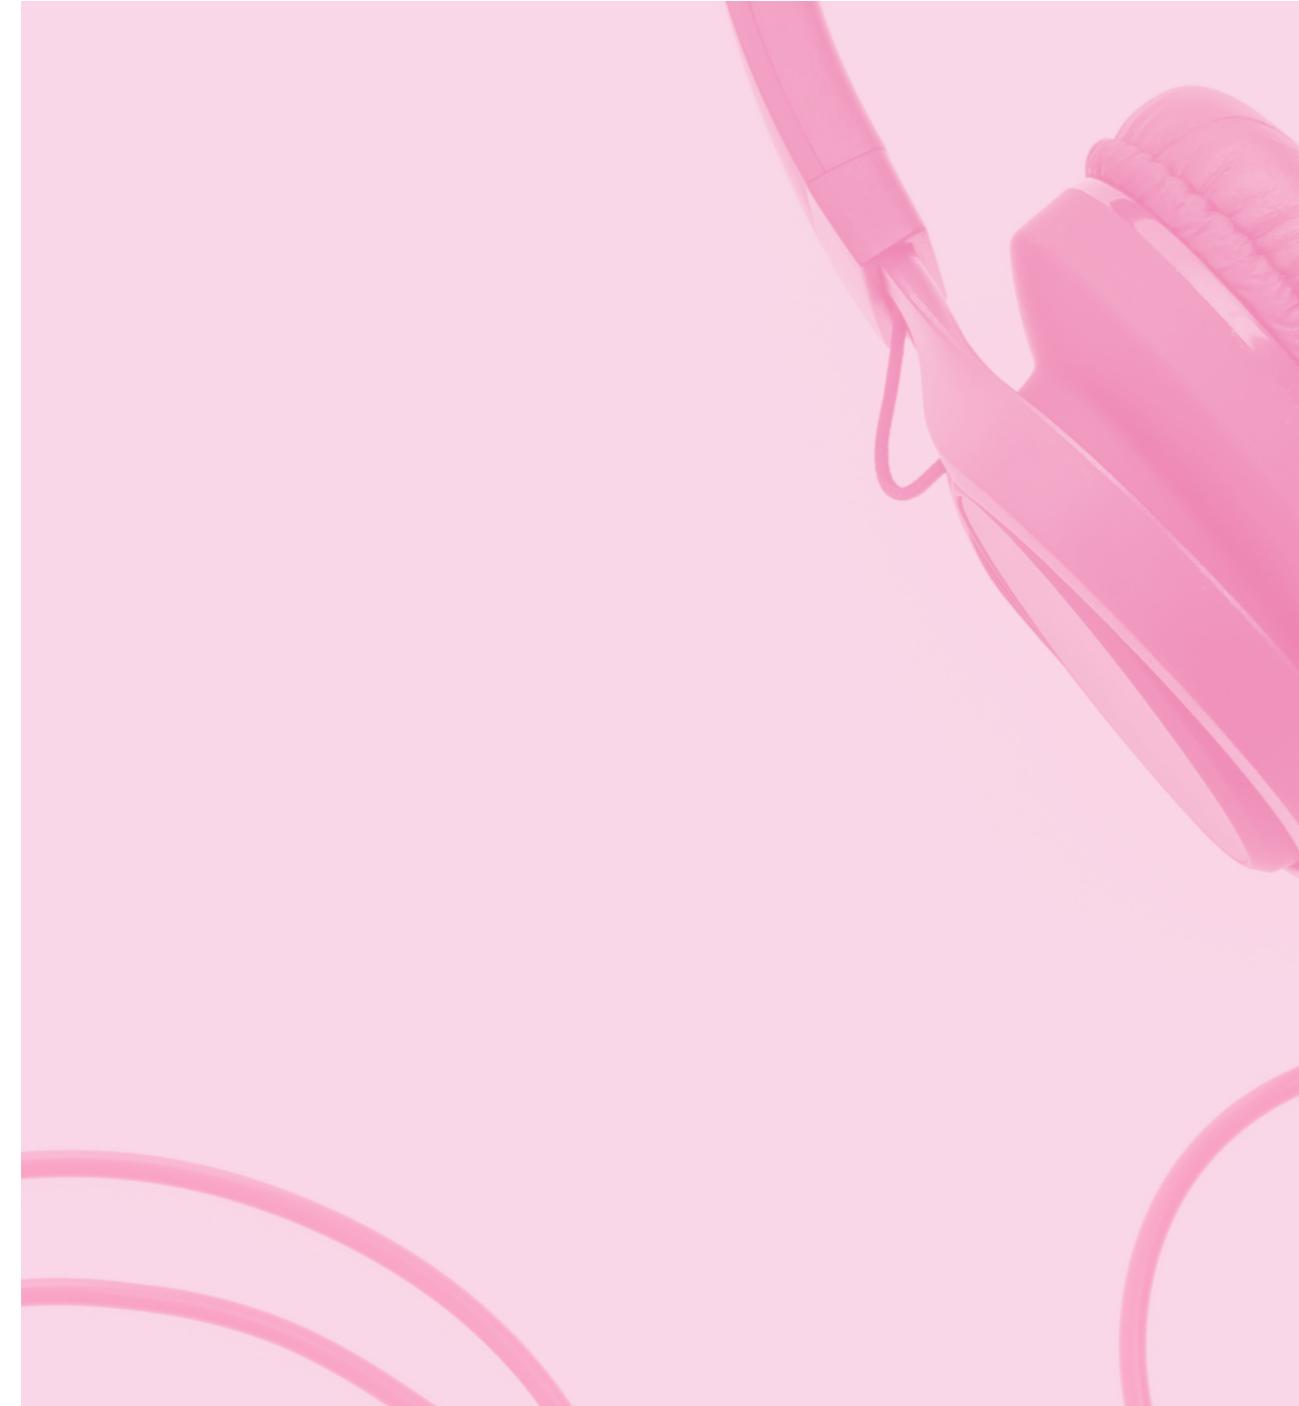

As of the date this report was written, the permanent Auditing Commission on authors rights' collective management societies has not yet made its sixteenth annual general report public.

This report should be available on the Cour des Comptes website ([www.ccomptes.fr](http://www.ccomptes.fr)) in the section entitled "Commission permanente de contrôle des SPRD". It will also be accessible on the SCPP website.

Copies of the general report should be available at the General Shareholders' Meeting of 25 June.

In addition, the SCPP will send a copy to any associate who requests one.

Finally, it should be recalled that the 2023 report concluded as to the SCPP's general good management and the performance of its IT tools. A significant part of the recommendations of the Audit Commission, consisting essentially of changes in form, were also implemented by the SCPP.

## Grants approved by the SCPP in 2024

80

04

The purpose of this report is, as every year, to report to the shareholders of the SCPP and to the Ministry of Culture on the use of the sums allocated either directly or indirectly by the SCPP for grants.

### 1/ FINANCING GRANTS

The SCPP had, for this purpose, in 2024, a total amount of 12,350,819 euros, including:

- 4,627,664 euros corresponding to 25% of Private Copying, that the SCPP must dedicate to Grants,
- 6,164,146 euros, euros from the balance of non-distributable technical amounts,
- 474,690 euros, which is the balance of the 2023 Grant budget ("Selective Assistance" balance: 85,881 euros, "Drawing Rights" balance: 388,809 euros),
- 406,688 euros in grants approved during previous periods that were cancelled in 2024 and reincorporated into the Selective Assistance budget for 2024,
- and 677,631 euros in "Drawing Rights" grants approved during previous periods that were cancelled by the producers in 2023 and reincorporated into the budget for 2024.

### 2/ ALLOCATING THESE SUMS

The SCPP's entire grant budget was allocated by the Board of Directors as follows:

- a - 5,869,161 euros in the "Drawing Rights" budget (i.e. 5,875,969 euros for the initial budget from which 6,808 euros of 2024 Drawing Rights waivers have been subtracted)
- b - 6,481,658 euros for the "Selective Grants" budget (i.e. 6,068,162 euros for the initial budget, 406,688 euros in cancelled and reincorporated grants from prior years, 6,808 euros of 2024 Drawing Rights waivers).

The "Selective Assistance" budget was allocated in accordance with the decision of the General Shareholders' Meeting to:

- grants for sound recordings: 3,112,996 euros (2,946,327 Euros + 164,400 euros in cancelled grants from prior years + 2,269 euros in 2024 Drawing Rights waivers).
- grants for music videos: 886,432 euros (589,265 Euros + 102,042 euros in cancelled grants from prior years + 2,269 euros in 2024 Drawing Rights waivers + 192,855 euros for the balance of the live performance budget 2024).
- grants for live performances: 406,864 euros (482,126 euros + 115,324 euros in cancelled grants from prior years + 2,269 euros in 2024 Drawing Rights waivers – the remaining balance of 192,855 euros added to the 2024 music video budget).
- grants for special projects: 1,773,079 euros (2,050,444 euros + 12,635 euros in cancelled grants from prior years - 250,000 euros for marketing grants - 40,000 euros to support the payment of Minimum Guaranteed Advances).
- marketing grants: 262,287 euros. (250,000 euros + 12,287 euros in cancelled grants from prior years).
- Grants to support the payment of Minimum Guaranteed Advances: 40,000 euros.

### 3/ ALLOCATED GRANTS

During the 2024 fiscal year, the Commission met 12 times to examine 1,032 grant request applications (1,347 in 2023). The Board of Directors granted, as proposed by the Commission, 840 grants (999 in 2023) for an amount of 10,844,733 euros<sup>(1)</sup> (i.e. 5,186,460 euros in terms of "Drawing Rights" and 5,658,273 euros in terms of Selective Grants).

- 81.40% of the requests were satisfied.

	Number of requests	Approved grants	Requests satisfied
<b>CREATIONS</b> - Albums - Music Videos	679	576	84.33%

## 4/ BENEFICIARIES

In 2024,

- 85.41% of the SCPP's grant budget was directly allocated to phonographic producers or to their licensees, corresponding to 9,262,693 Euros.
- 4.63% to training institutions or bodies, corresponding to 501,715 euros.
- 3.03% to special projects, corresponding to 328,150 euros.
- 3.75% to phonographic producers within the framework of agreements with performance venues, corresponding to 406,864 euros.
- 3.18% in terms of rights defending activities, corresponding to 345,311 euros.

## 5/ THE COST OF MANAGING GRANTS

The cost of managing grants is covered by the company's general budget. The SCPP does not take any sums from the grant budget in order to finance the operation. Costs for this management are however estimated for 2024 to be 272,016 euros.

## 6/ ALLOCATION PROCEDURES

All requests for grants (other than those pertaining to special projects) are submitted to an allocation Commission of which its 9 members are elected each year by the company's General Shareholders' Meeting. This Commission, in compliance with the rules set forth by the Board of Directors and which all of the requesters are informed of<sup>(2)</sup>, proposes to the Board of Directors: for selective assistance, whether or not a grant is allocated and the amount accorded, and, for applications using printing rights, after a check on eligibility and that the requested amount complies with current ceiling rules, the allocation of the grant. The Board of Directors approved by the General Shareholders' Meeting, after having heard a representative of the Commission, approves or does not approve the proposed grants.

The payment of grants is conditional upon the declaration of the titles mentioned in the assisted projects in the SCPP catalogue (during the payment of the first part for video music projects and during the payment of the balance for sound recording projects). 50% of the grant is paid before the project is carried out, and the remaining 50% is paid on presentation for:

- creating sound recordings: of 2 CDs or the screen shot of available tracks on a download site. (A check is carried out via sampling of one "Printing Rights" dossier and one "Selective Assistance" dossier per month, in order to make sure that the allocated grant does not represent more than 50% of the actual recording costs). The payment of the balance of the grant is conditional upon the declaration of the titles mentioned in the assisted project in the SCPP catalogue and the provision of payslips or invoices for services (according to the allocation rules - see Art. 2-2) for the main artists and accompanying artists included in the provisional budget. The absence of remuneration for an artist must be justified.

- Music Videos: a DVD copy of the clip or the screenshot of the video available on a broadcast site, the copy of the audiovisual production contract or invoices paid to produce the clip, making it possible to check that the allocated grant does not represent more than 70% of actual production costs. Music videos must be declared in the SCPP catalogue.

- the marketing grant: if the album is already marketed at the time of submitting the application, the grant will be paid in one instalment, on prior presentation of the physical or digital album declared in the SCPP catalogue and following the provision of invoices evidencing the funding making it possible to check that the allocated grant does not represent more than 50% of the funding with a ceiling of 20,000 euros.

If the album is not yet marketed at the time the application is submitted, the grant will be paid in two stages: 50% paid on notification of the award of the grant and 50% paid on presentation of the physical or digital album declared in the SCPP catalogue as well as the invoices evidencing the funding making it possible to check that the allocated grant does not represent more than 50% of the funding with a ceiling of 20,000 euros. This information must be provided no later than one year after the grant has been awarded.

- Grants to support the payment of Minimum Guaranteed Advances: the contribution is paid with the balance of the grant awarded under the sound recording production grant, to which it is added and contributes, subject to the producer providing an acknowledgement of payment of the advance on royalties that was the subject of the request, signed by the lead performer.

The verifications concerning the creation of sound recordings are submitted to the Commission for approval only when the amounts granted need to be revised. For the marketing grant all of the verifications are subject to the approval of the Commission.

The first half of the grant is recovered by the SCPP if the project does not take place. For the marketing grant, if the minimum amount of the funding fails to reach a minimum threshold of 15,000 euros (5,000 euros for classical jazz and traditional music), the grant will be cancelled and where the first instalment has been disbursed, it must be reimbursed.

Only grants allocated for artist training and show cases, in concert halls that are approved by the SCPP, are paid in full in a single payment after proof that they have taken place and the declaration of the titles of the album that are subject to the promotion campaign in the SCPP catalogue.

(2) These rules appear in the grant application file.

## COMBATING PIRACY

In 2024/2025, the SCPP Anti-Piracy Unit successfully carried out new actions to block access, from the French territory, to sites known to be illegal (torrent sites, link sites and converter sites ("stream-ripping")), which were also de-listed by Google following the court rulings obtained.

In addition, the Anti-Piracy Unit sends notifications to website publishers and hosting providers on a daily basis leading to the mass removal of illegal links that enable unauthorised downloading of music content. Hundreds of thousands of files of illegal music content have consequently been deleted this year.

Notifications were also sent to the Google and Bing search engines to have illegal links removed.

### 1/ FIGURES FOR THE YEAR 2023/2024

- As part of implementing the "Creation and Internet" act, the SCPP's sworn officials send thousands of reports on the illegal availability of sound recordings and music videos on peer-to-peer networks to ARCOM on a daily basis. Over the past year, nearly 500,000 reports were sent by the SCPP to ARCOM. All these reports focus on a varied catalogue (Variety, Rap, Rock, Dance, RnB, Classic, Jazz, etc.).
- This year, the Anti-Piracy Unit handled 23 litigation files (10 Civil and 13 criminal), as well as ARCOM proceedings follow-up files (settlement proceedings and civil party complaints before the Police Court).
- Over 200,000 illegal links and piracy websites on the Internet, amounting to 2.46 million MP3 files, were deleted subsequent to the SCPP sending warning and removal letters. The sources that provide these links, as well as mirror sites and proxies are also subject to de-listing requests to the search engines Google and Bing, together with sites that do not comply with take-down requests or to which notice cannot be sent. In total, this amounts to hundreds of thousands of URLs de-listed over the past year.
- Furthermore, the Anti-Piracy Unit sends out notices and take-down letters relating to posts on social media, in particular X (formerly Twitter) and Telegram.
- Advertisements concerning the sale of unauthorised CDs were removed from the online sales sites Amazon, Leboncoin, eBay, and CD&LP.
- 146 verifications were carried out and certificates of offence were drawn up by sworn agents concerning primarily the sectors of telephone music-on-hold, podcasting, and television channels.
- The market for physical media, especially LPs (33 rpm), which has been booming in recent years, has also been under surveillance. The accounts of several online sellers were closed following the SCPP's intervention. Product references were also removed after notice and take-down letters were sent.

### 2/ CURRENT PROCEEDINGS

#### • **Actions taken against Newsgroups**

The High Court of Paris issued a joint order authorising an Internet Service Provider (ISP) to suspend, for a period of one year, 39 music newsgroups offering unauthorised downloads of music files.

#### • **Actions in blocking illicit sites**

Following new civil lawsuits initiated by the SCPP, several blocking decisions were issued this year by the High Court of Paris concerning many well-known pirate sites such as (Y2META, MP3-JUICES, MP3VA, RUTRACKER, TORRENTQUEST, etc.). Procedures aimed at updating decisions previously attained following changes to the domain name extension of the sites concerned, which attempted to override the blocking measures handed down against them (DARKINO, WAWACITY, 1337X ...), were also initiated by the SCPP. All of these favourable court rulings correspond to a total of 87 sites and 262 domain names. The SCPP also acts as a liaison with Google in order to ensure that the sites and domains indicated in the legal rulings obtained are delisted.

It is specified that under the terms of all of these rulings, the costs of the blocking measures remain payable by the internet service providers.

#### • Actions taken against illegal “stream ripping” sites

Civil lawsuits have been initiated by the SCPP against illicit “stream ripping” sites, allowing music videos from the SCPP’s social catalogue to be converted online into downloadable audio and video files without the permission of the producers and offered for streaming by various sites such as YouTube.

Several blocking decisions have been issued by the High Court of Paris against sites of this kind.

#### • Criminal proceedings against publishers of illegal download sites

Criminal proceedings taken by the Anti-Piracy Unit regularly give rise to convictions of a deterrent nature. Thus, again this year, new rulings have strengthened the abundant case law obtained by the SCPP over several years in its fight against piracy, in particular:

- A judgement of the High Court of Paris on 6 September 2024, against which an appeal was filed, led to three perpetrators being sentenced indifferently to suspended prison sentences, judicial or customs fines, bans on managing a business in the record industry, publications and confiscations, with 2 defendants being jointly and severally sentenced to pay €52,000 in damages and €3,000 in legal costs;
- A final judgement of the High Court of Strasbourg on 20 January 2025 ordered 4 defendants to pay compensation of €68,172, €2,400 and €2,000 for material and moral damages and legal costs;
- A final judgement of the Court of Appeal of Amiens on 5 February 2025 overruled the initial judgement which dismissed the charges, and found the accused guilty of counterfeit, sentencing him to a suspended sentence of 6 months in prison and to €38,425 in damages and €1,500 in court costs;
- A judgement of the Court of Appeal of Aix-en-Provence on 22 April 2025 jointly and severally sentenced the 5 defendants to pay €444,803 in damages for material losses, in addition to €1,500 in moral loss and legal costs in the first instance and €500 each for legal costs for the appeal that confirmed the confiscation of the funds seized.

## 3/ RELATIONS WITH INSTITUTIONS AND PROFESSIONAL ORGANISATIONS

106

The SCPP is a member of the Union des Fabricants (UNIFAB).

As such, the SCPP’s Anti-Piracy Unit plays an active role in providing training courses for Regional Customs Departments and the Central Directorate of the Judicial Police, in order to raise awareness among these bodies that combating music piracy (both physical and digital media) is a priority.

The SCPP’s close relations with SACEM give rise to joint follow-up of legal actions.

Lastly, the Anti-Piracy Unit has special relations with the IFPI (International Federation of the Phonographic Industry) and its various national groups, which facilitate regular exchange of information on the strategies to be applied to improve the fight against the scourge that is music piracy.

## COMMUNICATIONS DEPARTMENT ACTIVITY REPORT 2024 – 2025

The SCPP's communication aims to fulfil four objectives:

- **Keep** its members regularly informed of the SCPP's activities.
- Enable SCPP members to **meet** the players in the music sector via events and professional fairs.
- **Support** lobbying actions and the efforts of the anti-piracy unit in their mission to defend producers' rights.
- **Consolidate** the reputation of the SCPP by positioning it as the number one partner of producers of sound recordings.

### 1 / INFORMATION FOR MEMBERS

#### **1.1/ Social media: a 30% increase in the number of SCPP's subscribers**

Social media is one of the SCPP's main communications tools. Messages are shared on the SCPP's Facebook, Twitter, Instagram, and LinkedIn accounts. A YouTube channel hosts SCPP videos. Last year, the number of SCPP's subscribers on these different networks increased by 30%.

#### **1.2/ The SCPP newsletter: an essential tool for communicating with our members**

A genuine direct communications link with SCPP members, the SCPP's newsletter informs its members about the SCPP's activities. The SCPP Newsletter is emailed to the SCPP's 4,500 members.

#### **1.3/ The SCPP website: a forthcoming overhaul of the site**

The SCPP's website ([www.scpp.fr](http://www.scpp.fr)) provides news and information on the agendas for meetings of the SCPP's committees and the Board of Directors. The promotion of videos produced by the SCPP is one of the priorities of the next SCPP website which is currently under construction.

#### **1.4/ Videos: tutorials to enable our members to better understand our mission**

Mini videos were produced throughout the year, posted on the SCPP's YouTube channel and shared on its social media accounts. The videos are organised by theme: presentation of the SCPP and its objectives, the SCPP Concerts, the SCPP's online services and music producers' rights.

### 2/ INFORMING THE MEDIA

The SCPP communicates mainly to the trade press and the economics departments of the national press and media sites by holding press lunches twice a year, once in January (31 January 2025) and the second when its General Shareholders' Meeting is held.

Between June 2024 and June 2025, the SCPP communicated on:

- Press release dated 23 January 2025: Theodule parliamentary bill on committees: the SCPP opposes the equitable remuneration commission being discontinued
- Press release dated 6 March 2025: "Labels celebrate vinyl": The SCPP @ Ground Control Disquaire Day returns for the second time on Saturday 12 April 2025
- Press release dated 4 July 2024: SCPP AND THE M6 GROUP: Agreement to perform and remunerate their music productions
- Press release dated 27 June 2024: General Shareholders' Meeting of the SCPP: re-election of Olivier Nusse as Chairman of the Board of Directors of the SCPP
- Press release dated 26 June 2024: The SCPP General Shareholders' Meeting: 2023 figures
- Press release dated 27 May 2024: Partnership agreement between ADAMI and the SCPP
- Press release dated 19 March 2024: The SCPP invites two music producers to participate in the "isocElles" support and skills development programme (France/Canada)

## 3/ EVENTS AND TRADE SHOWS

### 3.1/ The SCPP Concerts: 30 up-and-coming artists at prestigious venues

Each year, the “SCPP Concerts” enable some thirty up-and-coming artists produced by members of the SCPP to perform at prestigious venues and at the major festivals in France (MaMA, Printemps de Bourges, Francofolies). This scheme continued to grow as SCPP Concerts were also organised for the Disquaire Day and Hellfest in July 2025.

### 3.2/ The “SCPP @Ground Control Disquaire Day”: a new event organised by the SCPP

On 12 April 2025, the SCPP organised the “SCPP @ Ground Control Disquaire Day” for the second time: a full day of musical entertainment (concerts, DJ sets, conferences, business meetings, children’s workshops, Discomaton). 70 labels are invited to participate in a vinyl sale. The satisfaction survey shows that 100% of members invited wish to see the operation repeated next year.

### 3.3/ MaMA 2024: a time to meet up for members of the SCPP

In addition to organising “SCPP Concerts” at the Boule Noire (16, 17, 18 October 2024), the SCPP also organises numerous events at this festival/convention. The SCPP booth enables our members to meet SCPP teams throughout the day. An event dedicated to women in the sector was organised, bringing together close to 80 professional women. The SCPP organised a conference on the topic of: “The SCPP and independents: what are the benefits?”. In all, nearly 300 members of the SCPP were able to exchange ideas with our teams.

### 3.4/ SCPP general shareholders' meeting

The SCPP's General Shareholders' Meeting was held on 26 June 2024. Some 150 members attended this meeting as well as the cocktail party organised after the event. A presentation of the activities of the Communications Department was given to the members of the SCPP.

## 4/ ACTIONS FOR GENDER EQUALITY

### 4.1/ The “IsocElles” programme: the SCPP supports two young professional women

In partnership with SACEM and the Musication Canada foundation, the SCPP invited two women music producers and members of the SCPP to participate in a Franco/Canadian exchange and meeting programme. In 2024, Jennifer Barnay (Delorean) and Yamina Abdous (On the Boat) benefited from this programme that had a real impact on their professional lives.

### 4.2/ “InformElles” breakfast: for women in the sector

The SCPP organised a meeting for women in the sector for the first time at MaMA 2024. Almost 80 professionals met. An opportunity for the SCPP to recall that it supports three gender equality programmes: the IsocElles, Mewem and All Access programmes.

### 4.3/ Tous Pour la Musique: videos that put inspiring women in the spotlight

As a partner of the “Tous Pour la Musique” association, which brings together the main organisations in the music sector, the SCPP contributes to promoting women through videos produced throughout the year showcasing inspiring journeys.

## 5/ DEFENDING PRODUCERS' RIGHTS

The SCPP aimed to inform possible offenders, producers, and public authorities of the risks incurred when the rights of producers are not respected.

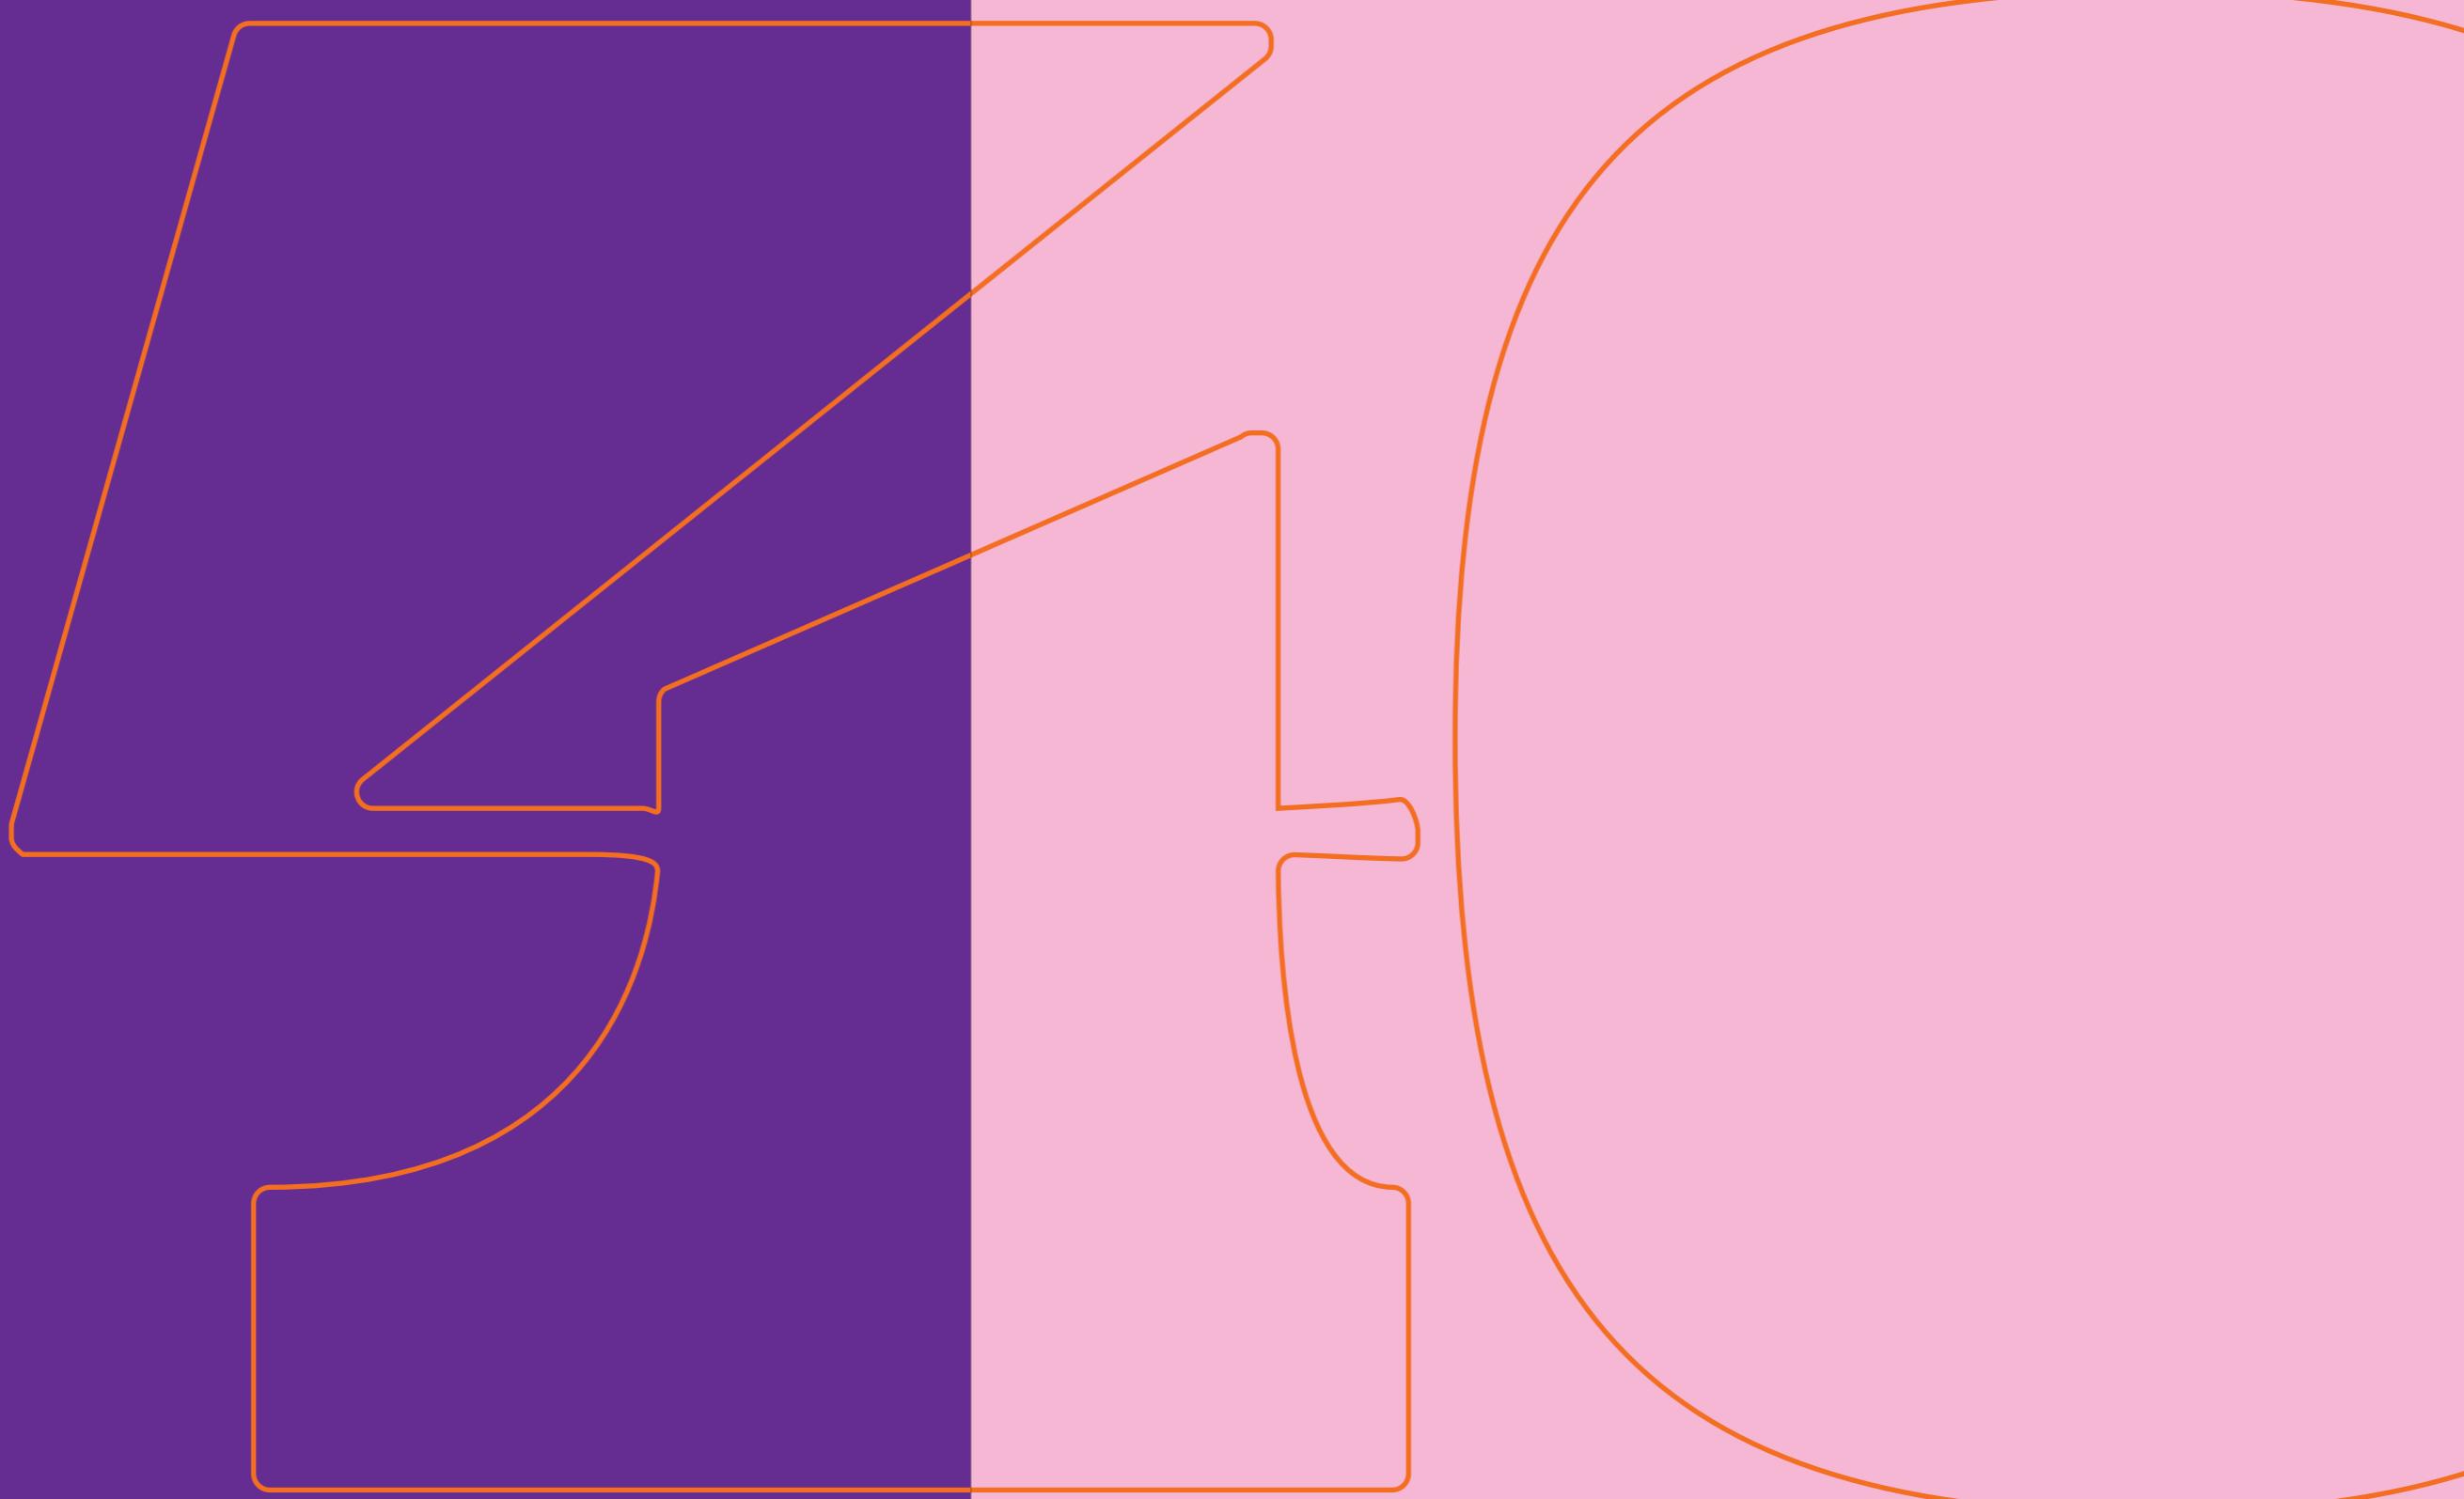

### 5.2/ Combating piracy and promoting legal sites

In order to encourage the development of legal downloading platforms, the SCPP partners with the “Tous Pour la Musique” association ([www.touspourlamusique.org](http://www.touspourlamusique.org)).

### 5.3 / Relations with the press

The communications department regularly informs the regional and national press of the favourable legal rulings obtained by the anti-piracy unit. These are published each year in the Annual Report.
